Journalism, BSU State Conventions Spotlight Frantic Month of November

NEO Teachers Set Busy Pace Attending Meet

Charles Angle and Earl Griehaber will represent Northeastern A&M at the statewide conference on higher education sponsored by the Department of College Teachers of the Oklahoma Education Association on Dec. 3 at Northwest high school in Oklahoma City.

Speakers for the meeting will include Dr. John Dale Russell, Director of the Office of Institutional Research and Director of the Center for the Study and Development of Higher Education of New York University; Dr. Peter McCarter, vice-president of the University of Oklahoma; Dr. Robert Mac Vicar, vice-president of Oklahoma State University; and Honorable J. Howard Edmondson, Governor of Oklahoma.

The meeting will be devoted to talks by the men mentioned above and various group discussions in various academic fields.

NEO was the sight of two conferences during the past week. Wednesday there were over 50 educators from the tri-state area present on the Miami campus. Monday Northeastern hosted 30 high school and college faculty members at a banquet held in the Bruce G. Carter student union.

"Guidance and Counseling of High School Students in Technician Education for National Defense" was the topic discussed by the 60 tri-state educators. Mr. Gerald Kidd, high school counselor from the Oklahoma City public school system, addressed the group on "Opportunities for Meeting National Defense Needs in Industrial Technology."

The group attended a noon luncheon in the student union and then was addressed by several leaders in the technology field in the importance of this field.

The banquet held Monday was for the purpose of acquainting Tulsa faculty personnel with the facilities and instructing techniques used by Northeastern A&M. Tours were taken following the banquet to acquaint the guests with these facilities.

High schools represented were Tulsa Central, Tulsa Edison, Tulsa McLain, Tulsa Nathan Hale and Tulsa Will Rogers.

The Baptist Student Union will have a hay ride Saturday night. All interested students should meet at the BSU building at 8 p.m. Students may bring their dates if they wish.

The group will go to Willard's ranch to eat.

"THE DIARY OF ANNE FRANK"—Anne Frank, portrayed by Bonnie Stoner, Miami, and Peter, Anne's boyfriend during two years of hiding during the German occupation of World War II, played by Ted Watts, Miami, glance out an attic window in a typical scene from the three act production. The play will be presented at Northeastern A&M college Dec. 5-9 at 8 p.m. in the college auditorium under the direction of Bruce Owen. Other cast members include Miss, played by Barbara Fields, Miami; Mr. and Mrs. Van Dam, played by Mary Spriggs and Fred Holt, both from Miami; Mr. Kraber, played by Mark Hodder, Midwest City; and Mr. Dussell, played by Phillip Garoutte, Miami.

Nixon, Kennedy Appreciate Norse Stars' Performances

Richard Nixon, Vice-President of the United States, recently sent a letter of appreciation to the Norse Stars of Northeastern A&M which stated his gratitude to the people of Oklahoma.

Nixon, who witnessed a Norse Star performance during his trip to Tulsa last month, said, "We were greatly impressed with the splendid performance turned in by the Norse Stars Drill Team."

"We were deeply touched by the heartwarming welcome we received in the Sooner State, and we wanted to thank you for the part you played in making this step along our 1960 campaign trail a particularly enjoyable one for us."

Since writing the letter the Vice-President was defeated by Massachusetts Senator John F. Kennedy in one of the closest races in the history of the United States. Nixon, however did carry the state of Oklahoma by a vote larger than the margin compiled by President Dwight D. Eisenhower.

After attending the Democratic rally in Oklahoma City for President-elect Kennedy, the Norse Stars received an autographed picture of the winning candidate. Responsible for obtaining the picture was NEO agriculture professor John J. Micka. The girls' drill team appeared in the state capitol

on their way to the Northeastern-Cameron football game.

Cash Awards To Be Given

Cash awards amounting to \$10 are being established by the Norse Wind to encourage creative writing among students of Northeastern A&M college.

Students wishing to compete for the three prizes should submit to the publications office not later than Monday, Oct. 5, a theme or poem with a message of Christmas. Entries will be judged on originality, content, and grammatical usage.

The Norse Wind will publish a list of the winners and their entries in the Dec. 15 issue of the college newspaper. First prize will consist of five dollars, second will be three dollars and third will be two dollars.

Highlights in the News

Don Dyer begins 16th year at NEO	PG-3
Three Norsewomen make All-American team	PG-3
Band chooses Carver president	PG-4
Baseball season begins in earnest	PG-4
Football team ends season with tremendous win	PG-4

Nine Staffers Leaving Friday For Stillwater

Nine members of Northeastern A&M's journalism staff will leave early tomorrow morning to attend the Oklahoma Collegiate Press Association conference being held at Oklahoma State University Nov. 18-19. The departure of the journalists will mark the second time in the past week that NEO students have attended state conventions, as BSU members returned Sunday night from the state BSU meeting in Edmond.

Students planning to make the trip to Stillwater include Melba Seaton, Commerce; Shirley Guthrie, Sand Springs; Wayne Bishop, Tulsa; Jack Spencer, Miami; Bob Richards, Jacksonville, Fla.; Kay Miller, Columbus, Kan.; Karen Edwards, Miami; Kenneth Boyd, Cardin; Charles Boyd, Bristow; and Ivan Holmes, sponsor.

The two-day program is intended to further the knowledge of Oklahoma college students in the lay-out and content of newspapers and yearbooks. This is done by a series of informative panels and a critical survey conducted on all papers entered in the program.

After a general assembly at 9:30 a.m., the young writers will attend two panels dealing with almost every phase of the college newspaper. OCPA officers will be elected at a noon luncheon presided over by Dr. Charles Alton, head of the OSU journalism department.

Additional discussion groups will occupy the rest of the afternoon before recess to the student union and the 8 p.m. banquet. Featured at the banquet will be a speech by Tulsa Tribune reporter Jim Downing.

The program Saturday will consist of critical examinations of the college publications by noted journalists. Students and sponsors will have the opportunity to see what could be done to improve their style and general appearance.

The meeting will be culminated by a general assembly presenting a summary of the convention and plans for 1961. It is expected that another conference will be held next spring with the main attraction being the selection of Oklahoma's outstanding college publications.

Members of NEO's Baptist Student Union returned last Sunday from the three-day meeting of BSU members from every college in the state. The convention was held on the campus of Central State College in Edmond, and presented much information on how to run a better BSU organization.

Students making the trip from Northeastern were Sue Nelle Webb, Miami; Diane Killion, Miami; Rita McMillian, Miami; Irma Stetts, See CONVENTION on Page 2.

Comedy Opens At NEO Tonight

"The Male Animal," a comedy in three acts, will be presented by the Miami Little Theatre in the college auditorium Nov. 17-19. The price of admission is \$1.00. Northeastern A&M students appearing in the play are Fred Holt, Donna McNatt, and Phillip Garoutte, all of Miami.

The production centers about a college professor who has controversial concepts of education. He immediately runs into trouble with the college board of trustees when he attempts to read a letter written by Bartholomew Vanzette, an anarchist.

The plot centers around whether the teacher will instruct his pupils in all phases of life, or only those that the board of trustees sanction.

Nov. 21 Deadline Set for Pictures

All students who have checked out pictures from the yearbook staff should return either the pictures or the money before Monday, Nov. 21. Ivan Holmes, yearbook co-sponsor, will be in charge of collecting the pictures and money in room 185 of the Administration building.

If students fail to return the money or the photographs, their names will be turned into the finance office and they will not be allowed to pick up grades or receive transcripts. Pictures may be purchased for 10 cents each or \$2.50 for all 25 in the package.

Norse Win—But How?

It's all over but the feasting now, but much credit should be given to a group of young men who wore the blue and gold this fall on the football field.

Perhaps I should clarify this statement. Many students probably were confused at the term "blue and gold." If they had been to one of NEO's football games this season they would have seen that blue and gold are the school colors for Northeastern A&M.

Once again the Golden Norsemen managed to compile a terrific win-loss record in JUCO competition, but there are many people who are still wondering how they did it. About the only grid action that was watched with any enthusiasm at all in 1960 was the homecoming game against Northern. That contest, perhaps the greatest Norse effort of the year, was witnessed by an exceptionally large crowd. Nevertheless, it would have taken a recount to determine whether or not that crowd was larger than the one attending the Powder Puff Bowl. When the football players see huge turn-outs for a girls' game, and barely enough people for a good bridge party at their own battles, they are bound to wonder a little.

A good example of the lack of school spirit was displayed the morning the defending national champs left for Lawton and their all-important clash with Cameron. A sparse gathering of faculty members and students took time to see the boys off. No pep rallies were held, and not much sign was given to let the team know that the school was behind them. Ask some of the sophomores what would have been going on last year. It would be safe to say that there would be a lot of noise for quite a while in Miami.

It's hard to say who's to blame. It could be a lack of leadership in the sophomore class. It could be a lack of enthusiasm in the freshman class. It could be partly the fault of the faculty. Whatever it is something ought to be done about it before the basketball team gets the same treatment.

What Is Education?

In this age of specialization, there is a tendency to overlook education to be human beings; to make the most of human powers. A liberal education is necessary to prepare one for real living; ability to participate as an effective citizen and to achieve personal happiness. The best approach to a liberal education is by direct contact with the great minds whose ideas and writings have helped to shape western civilization.

Robert M. Hutchins has said "The Constitution of the United States does not require that all citizens shall be experts in everything. But its major premise, without which the whole democratic structure must collapse, is that people will be informed enough, intelligent enough, and interested enough to judge the policies proposed to them by those whom they have chosen . . . to represent them."

Designed to fill the need for a guide in finding out what the great ideas of past and present civilizations and what other people in other times have thought concerning Liberty, The State, Justice, Human Nature, etc., is a new reading plan. A synopicon presents the ideas going through literature and indicates which authors had something to say on this subject and what he had to say. It is suggested that reading these books become a lifetime project and that one start at the first and read them all; it is possible that you might like rather to pursue an idea and start out by reading just those books or parts of books which embrace this idea.

The aim of the study is not to gain knowledge of the past but to reach for the best wisdom of all the ages, for our own enlightenment, and for the understanding of contemporary problems.

SURE I KNOW WHO'LL WIN—These students represent only a few of the viewers of two television sets bringing the latest election results to the NEO campus. The huge election party was the climax to many weeks of work for Northeastern political science students.

Political Science Students End Months of Work With Party

BY MELBA SEATON

Northeastern A&M's social science students received a practical taste of government as over 400 students crammed into the Little Theatre to participate in the election party sponsored by the college political science department and the Intercollegiate Knights, national honorary service fraternity.

Tally sheets were given each student and two television sets and three blackboards, kept up-to-date by Ralph Cole, Vinita Paul Dixon, Miami; Norman Pickett, Tulsa, and Terry Westfall, Miami, all members of the Intercollegiate Knights, helped students keep current results.

Actually preparations were made weeks in advance as Northeastern A&M students in various social studies classes, as part of their regular classwork, handed in assignments dealing with various phases of the election.

Each student was required to fill out a prediction sheet naming the candidate who would get the elec-

toral votes from each state, by Oct. 31. Then the student received another sheet to be filled out by Nov. 4 along with a third and final sheet to be filled out immediately after the election. The students then compared their first two sheets with the last one, explaining reasons for the differences in their predictions.

Students also wrote a paper on the "head, heart, and stomach," issues of the campaign, taken from newspapers, magazines, and what they heard on television and radio.

Actually each student did hours of research on each state before making out the tally sheets on how each state would vote. Each of the students' choices of each state had to be based on actual facts and each student had to turn in all material related to the choice of the vote for each state.

The college student body responded to the election study and social science instructors Charles Angle, Cecil Ferre, and

E. J. Grieshaber, all stated they thought the project was encouraging in that it created interest in the election along with bringing about better political attitudes.

"We were well pleased with the outcome of the election party as each student did an outstanding job," Angle stated. "Credit should also be given to members of the Intercollegiate Knights for their efficient directing of the election party."

Norman Pickett, president of the ICK, stated, "The students' reaction was quite respectable." Pickett added, "An interesting feature in the party was the male dominance in attendance. Although girls living in the dorms were allowed to be out until midnight the men possessed the most interest in the political election party," Pickett concluded.

Because of the outstanding response there is a good chance that the election party will be repeated during the next political election. Students are already talking about the 1964 election and even though they will not be here in '64 students are laying the groundwork for the coming election party.

Speech Classes Provide Laughter Aplenty; Drifters Take Top Spot

BY IMOGENE STEWART

If you heard guitar music and laughter coming from the journalism room last week, it was just a part of the demonstration speeches being given in the speech class of Ivan Holmes.

The speeches included such choice subjects as how to make pies, dips and American and Chinese dishes by the girls. The male set in the class reported on how to play football, play a guitar, make a baseball, practice the art of self-defense, give a good shave, and articulate the voice.

Providing a candid audience for the speech makers was Oren Need. Need was looking through the transform from the adjoining room. Although he tried to convince students that he was merely standing on tiptoe, we feel that he required the assistance of a chair.

Fashion Forecasts

According to fashion forecasts the shorter skirts will be with us awhile. Most girls are wearing them just below the knee, and others just a little shorter.

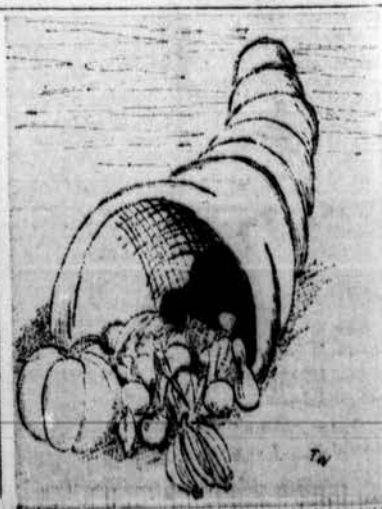

Top Ten

Many thanks to radio station KVIN in Vinita for supplying us with a weekly list of the nation's top ten. This week's list is as follows: "Save the Last Dance for Me," the Drifters; "I Want to Be Wanted," Brenda Lee; "Georgia on My Mind," Ray Charles; "Stay," Maurice Williams and the Zodiacs; "You Talk Too Much," Joe Jones; "Last Date," Floyd Cramer; "Poetry in Motion," Jsh-

ny Tillotson; "Don't Be Cruel," Bill Black Combo; "Let's Think About Living," Bob Luman; and "New Orleans," U. S. Bonds.

Convention

Miami: Connie Witbreach, Miami; Don Cochran, Commerce; Joe Darcino, Miami; Kent Jeffries, Miami; Bob Newman, Miami; Jerry Grigsby, Miami; and Denny Lashby, Miami.

Don Dyer Begins Year Number 16 As NEO Housing Chief, Counselor

BY BOB RICHARDS

Don Dyer, housing director at Northeastern A&M, is in the midst of his 16th year at the Miami junior college, and is finally reaping the rewards of his service.

Dyer, along with his wife Marian and son, Don, will soon move into a new home being built for them this year. The home should be completed within the month. For many years the Dyers have lived in various dorms on the campus. Their future home is located between Commons and Dyer halls.

In addition to being much nicer in appearance, the new house features two bedrooms, a large living room, and centrally located air conditioning and heating.

Born in Joplin, Mo., Dyer was raised in Commerce and attended Williams College in Kansas City. Coming to NEO in 1945, Dyer saw the school year end with only five male students living in the dorm. The remainder of the men had joined the service. The campus had only six buildings that year compared to 26 presently in operation. The football stadium was only half completed and assemblies were held in the library. There were not more than 75 students enrolled in school at that time.

Dyer is and always has been very dedicated to his work at Northeastern A&M. He is in charge of all housing and room assignments for students living on campus. In addition to his official duties, he does a great deal of counseling with students, especially the boys.

Dyer's biggest job, other than trying to keep the boys in the apartments in line, will come during the basketball season when the college hosts the high school tournament. It will be his job to make arrangements for 64 teams

Norse Footballers

To Attend Fete

Northeastern A&M's 1960 football team will officially end their season with a banquet to be held at 7 p.m. Thursday, Nov. 17 in the Bruce G. Carter student union. The Norse ended their regular season play with a record play with an 8-3 season record.

Included on the banquet schedule will be talks by Dr. Bruce Carter, college president; and head football coach S. A. "Red" Robertson. Entertainment will also be provided by the college music department. Master of ceremonies will be Dr. Cecil Ferree, dean of the college faculty.

In what was supposed to be a rebuilding year, the Golden Norsemen showed real strength throughout the year. Their only losses were to the nation's top teams, Tyler, Tex., was the first to turn the trick, beating the visiting Norse 45-7. Tyler was and still is the No. 1 team in the southlands. In a battle for the conference championship, the Cameron Aggies, No. 1 in the North, bested the Norse 26-14.

NEO Selected as Site for 1961 Science Fair

Northeastern A&M college has been selected to sponsor a science fair, March 31 through April 1, according to Frank Cunningham, head of the college chemistry department.

The decision for the site of the fair to be located at Northeastern

to eat and sleep.

Another of the school's valued personnel is Mrs. Dyer, who is in charge of the Bruce G. Carter student union. This involves the game room, the banquet room, and the snack bar. This job, plus taking care of her two men, takes up most of her time.

The other man in Mrs. Dyer's life is her son, Don Jr. Don is a senior at Miami high school and, like his parents, is very active in church. Planning to become a minister, Don will attend NEO for two years after his graduation this spring. Track and duck hunting are among his favorite pastimes.

When asked about today's students, Dyer stated: "Today's students are more interested in gaining an education than those of previous times. Because of this they are of slightly higher caliber." In regard to the opinion that the students are less boisterous than they used to be, Dyer made it plain that the student union was largely responsible for this. He felt that the union gave everyone a place to go and get a coke or just get together and talk.

The Dyers feel that having the new boys' dorm named after them was one of the greatest honors that they could possibly receive.

Band Chooses 1961 Officers, Prepares Fete

Jimmy Carver, Miami freshman, was recently chosen president of Northeastern A&M's band for the school year of 1960-61. Carver will be required to meet and represent visiting band members and to participate in functions when band director Robert Swanson is not available.

Those chosen as co-operating officers are Al Smith, Chicago, vice president; Harriett Wyatt, Miami, secretary; Sandra Hall, Wyandotte, treasurer; Joe McCormick, Bartlesville, student council representative; and Ronald Ballow, Tulsa, alternate representative.

Swanson stated that there were four sophomores who made their final appearances at the NEO-Coffeyville football game. These students were Paul Dixon, Miami; Harriett Wyatt, Miami; Linda Palm, Miami; and Max Butte, Fairland. In addition to the Coffeyville game, the band made appearances at all home games and Tyler, Texas and Cameron.

The band is now busy preparing for the winter festivities. First on the agenda is the basketball season, then a band concert.

ALL-AMERICANS—Wigwam Wisemen All-Americans Ronnie Ellis, Gene Hart, and Donne Pitman pose under the stars and stripes after being chosen to the 1960 All-American teams last week. They will be notified who has been chosen to play in the East-West JUCO game at a later date. Ellis was selected for his outstanding line play while Hart and Pitman were selected because of their offensive ability.

Ellis Hart, Pitman Selected To Juco All-American Team

Northeastern A&M's familiar combination of quarterback Gene Hart to End Donne Pitman, which accounted for six Norse touchdowns, reaped more honors this week. Both Hart and Pitman, along with outstanding tackle Ron Ellis, were notified that they had been chosen to the Wigwam Wisemen All-American football squad. The Wigwam Wisemen All-American board will select the top 44 players from the East and the top 44 from the West and the

two teams will clash at Albuquerque, N.M. in December. The three Norse players will be notified at a later date on whether they will be selected to participate or not.

Ellis, who played both offensive and defensive, was one of the leading defensive linemen on the squad. He made over 80 assists and was responsible for the outstanding defensive record of the Norse.

Hart was the big man with the arm as he threw 165 times with

65 completions. He gained over 1100 yards in the air and threw for 17 touchdowns through the air. He had only 12 passes intercepted through the entire season.

Pitman was the offensive end for the Norse and caught more passes than any other two Norsemen. Pitman caught 23 passes for over 500 yards and six touchdowns. He was responsible for much of the offensive success of the Norsemen.

AIDD Elects 1961 Officers

Gary Jolley, Tulsa, was elected president of the Student Chapter of the American Institute of Design Draftsmen during a recent meeting on the NEO campus.

The AIDD is composed of the drafting and designing students of the Industrial Technology Society. Chosen to back Jolley as 1961 officers are the following: Dale Sikes, Miami, vice-president; Ralph Rice, Chouteau, second vice-president; Jerry Young, Tulsa, third vice-president; Bob Ross, Bartlesville, secretary; Larry Booth, Miami, treasurer; Jimmy Carver, Miami, reporter; and Bob Armstrong, Nowata, by-laws chairman.

The newly organized AIDD student chapter will meet the second Tuesday of each month and will have guest speakers from industry who will discuss with the members opportunities for draftsmen and designers in the field of engineering.

ROTC Program Commended

Col. Floyd J. Gudgel, professor of Air Science at Oklahoma State University, has written a letter of commendation to the college on their outstanding ROTC program. Col. Gudgel stated, "It is with great pride and satisfaction that I inform you that your Air Force

International Club Challenges Campus Students in Contests

Northeastern A&M's International Club has challenged all NEO students to athletic competition in volleyball and ping pong.

The contests will be part of a full schedule of activities set for the second week in December and will highlight two

AFROTC Tours Altus Air Base

Northeastern A&M's Air Force ROTC cadets returned Sunday from a trip to Altus Air Force Base after a weekend of base visitation. While touring the base the NEO cadets were shown through a KC-135 jet tanker. Cadets Paul Ducotey, Fairfax and Jack Spencer, Miami, piloted a KC-135 by the simulated method.

Transportation for the trip was provided by an Air Force C-119.

ROTC program has distinguished itself once again under the highly critical and well-trained eyes of the Air Force ROTC Inspector General."

The letter went on to state that there were no discrepancies found with the unit and that the quality of the work of Capt. Persons, Capt. Ross, and Sgt. Baird, has been outstanding.

Max Buzzard is now in the process of making up brackets in both volleyball and ping pong competition and all interested students should contact him immediately if they wish to compete. Winners will be presented awards to be given by the International Club.

Admission tickets for the event will be given away by members of the International Club. Each member will have five tickets to give away.

professor of Air Science, accompanied the cadets to Altus.

Another phase of the ROTC program, the ROTC drill team, has been busy making performances of late. The team has made several appearances in the Miami area and plans to take part in the Christmas parade at Coffeyville early in December.

Don Dyer Begins Year Number 16 As NEO Housing Chief, Counselor

BY BOB RICHARDS

Don Dyer, housing director at Northeastern A&M, is in the midst of his 16th year at the Miami junior college, and is finally reaping the rewards of his service.

Dyer, along with his wife Marian and son, Don, will soon move into a new home being built for them this year. The home should be completed within the month. For many years the Dyers have lived in various dorms on the campus. Their future home is located between Commons and Dyer halls.

In addition to being much nicer in appearance, the new house features two bedrooms, a large living room, and centrally located air conditioning and heating.

Born in Joplin, Mo., Dyer was raised in Commerce and attended Williams College in Kansas City. Coming to NEO in 1945, Dyer saw the school year end with only five male students living in the dorm. The remainder of the men had joined the service. The campus had only six buildings that year compared to 26 presently in operation. The football stadium was only half completed and assemblies were held in the library. There were not more than 75 students enrolled in school at that time.

Dyer is and always has been very dedicated to his work at Northeastern A&M. He is in charge of all housing and room assignments for students living on campus. In addition to his official duties, he does a great deal of counseling with students, especially the boys.

Dyer's biggest job, other than trying to keep the boys in the apartments in line, will come during the basketball season when the college hosts the high school tournament. It will be his job to make arrangements for 64 teams

to eat and sleep.

Another of the school's valued personnel is Mrs. Dyer, who is in charge of the Bruce G. Carter student union. This involves the game room, the banquet room, and the snack bar. This job, plus taking care of her two men, takes up most of her time.

The other man in Mrs. Dyer's life is her son, Don Jr. Don is a senior at Miami high school and, like his parents, is very active in church. Planning to become a minister, Don will attend NEO for two years after his graduation this spring. Track and duck hunting are among his favorite pastimes.

When asked about today's students, Dyer stated: "Today's students are more interested in gaining an education than those of previous times. Because of this they are of slightly higher caliber." In regard to the opinion that the students are less boisterous than they used to be, Dyer made it plain that the student union was largely responsible for this. He felt that the union gave everyone a place to go and get a coke or just get together and talk.

The Dyers feel that having the new boys' dorm named after them was one of the greatest honors that they could possibly receive.

ALL-AMERICANS—Wigwam Wisemen All-Americans Ronnie Ellis, Gene Hart, and Donnie Pittman pose under the stars and stripes after being chosen to be the 1960 All-American teams last week. They will be notified who has been chosen to play in the East-West JUCO game at a later date. Ellis was selected for his outstanding line play while Hart and Pittman were selected because of their offensive ability.

Ellis Hart, Pitman Selected To Juco All-American Team

Northeastern A&M's familiar combination of quarterback Gene Hart to End Donnie Pittman, which accounted for six Norse touchdowns, reaped more honors this week. Both Hart and Pittman, along with outstanding tackle Ron Ellis, were notified that they had been chosen to the Wigwam Wisemen All-American football squad. The Wigwam Wisemen All-American board will select the top 44 players from the East and the top 44 from the West and the

two teams will clash at Albuquerque, N.M. in December. The three Norse players will be notified at a later date on whether they will be selected to participate or not. Ellis, who played both offensive and defensive, was one of the leading defensive linemen on the squad. He made over 80 assists and was responsible for the outstanding defensive record of the Norse. Hart was the big man with the arm as he threw 165 times with

65 completions. He gained over 1100 yards in the air and threw for 17 touchdowns through the air. He had only 12 passes intercepted through the entire season. Pittman was the offensive end for the Norse and caught more passes than any other two Norsemen. Pittman caught 23 passes for over 500 yards and six touchdowns. He was responsible for much of the offensive success of the Norsemen.

Norse Footballers To Attend Fete

Northeastern A&M's 1960 football team will officially end their season with a banquet to be held at 7 p.m. Thursday, Nov. 17 in the Bruce G. Carter student union. The Norse ended their regular season play with a victory over Coffeyville, Kan., to conclude play with an 8-5 season record.

Included on the banquet schedule will be talks by Dr. Bruce Carter, college president; and head football coach S. A. "Red" Robertson. Entertainment will also be provided. Master of ceremonies will be Dr. Cecil Ferree, dean of the college faculty.

In what was supposed to be a rebuilding year, the Golden Norsemen showed real strength throughout the year. Their only losses were to the nation's top teams, Tyler, Tex., was the first to turn the trick, beating the visiting Norse 49-7. Tyler was and still is the No. 1 team in the southlands. In a battle for the conference championship, the Cameron Aggies, No. 1 in the North, bested the Norse 35-14.

NEO Selected as Site for 1961 Science Fair

Northeastern A&M college has been selected to sponsor a science fair, March 31 through April 1, according to Frank Cunningham, head of the college chemistry department. The decision for the site of the fair to be located at Northeastern

Band Chooses 1961 Officers, Prepares Fete

Jimmy Carver, Miami freshman, was recently chosen president of Northeastern A&M's band for the school year of 1960-61. Carver will be required to meet and represent visiting band members and to participate in functions when band director Robert Swanson is not available.

Those chosen as co-operating officers are Al Smith, Chicago, vice president; Harriett Wyatt, Miami, secretary; Sandra Hall, Wyandotte, treasurer; Joe McCormick, Bartlesville, student council representative; and Ronald Ballew, Tulsa, alternate representative.

Swanson stated that there were four sophomores who made their final appearances at the NEO-Coffeyville football game. These students were Paul Dixon, Miami; Harriett Wyatt, Miami; Linda Palm, Miami; and Max Butts, Fairland. In addition to the Coffeyville game, the band made appearances at all home games and Tyler, Texas and Cameron.

The band is now busy preparing for the winter festivities. First on the agenda is the basketball season, then a band concert.

AIDD Fleets 1961 Officers

Gary Jolley, Tulsa, was elected president of the Student Chapter of the American Institute of Design Draftsmen during a recent meeting on the NEO campus.

The AIDD is composed of the drafting and designing students of the Industrial Technology Society. Chosen to back Jolley as 1961 officers are the following: Dale Sikes, Miami, vice-president; Ralph Rice, Chouteau, second vice-president; Jerry Young, Tulsa, third vice-president; Bob Hoss, Bartlesville, secretary; Larry Booth, Miami, treasurer; Jimmy Carver, Miami, reporter; and Bob Armstrong, Nowata, by-laws chairman.

The newly organized AIDD student chapter will meet the second Tuesday of each month and will have guest speakers from industry who will discuss with the members opportunities for draftsmen and designers in the field of engineering.

ROTC Program Commended

Col. Floyd J. Gudel, professor of Air Science at Oklahoma State University, has written a letter of commendation to the college on their outstanding ROTC program. Col. Gudel stated, "It is with great pride and satisfaction that I inform you that your Air Force

International Club Challenges Campus Students in Contests

Northeastern A&M's International Club has challenged all NEO students to athletic competition in volleyball and ping pong.

The contests will be part of a full schedule of activities set for the second week in December and will highlight two wrestling matches between international students, musical numbers, refreshments, finals of the ping pong and volley ball contests, and a talk by president Bruce G. Carter.

AFROTC Tours Altus Air Base

Northeastern A&M's Air Force ROTC cadets returned Sunday from a trip to Altus Air Force Base after a weekend of base visitation. While touring the base the NEO cadets were shown through a KC-135 jet tanker. Cadets Paul Ducey, Fairfax and Jack Spencer, Miami, piloted a KC-135 by the simulated method.

Transportation for the trip was provided by an Air Force C-119.

ROTC program has distinguished itself once again under the highly critical and well-trained eyes of the Air Force ROTC Inspector General."

The letter went on to state that there were no discrepancies found with the unit and that the quality of the work of Capt. Parsons, Capt. Boaz, and Sgt. Baird, has been outstanding.

Max Buzzard is now in the process of making up brackets in both volleyball and ping pong competition and all interested students should contact him immediately if they wish to compete. Winners will be presented awards to be given by the International Club.

Admission tickets for the event will be given away by members of the International Club. Each member will have five tickets to give away.

professor of Air Science, accompanied the cadets to Altus. Another phase of the ROTC program, the ROTC drill team, has been busy making performances of late. The team has made several appearances in the Miami area and plans to take part in the Christmas parade at Coffeyville early in December.

NORSEMEN GO TO COURT

Buzzard Unveils 1961 Basketball Quintet Dec. 1

Before the football managers can finish putting away grid uniforms, they are swamped with requests for clean basketball equipment to outfit the 1961 edition of the Golden Norse court quintet.

From all outward appearances, Coach Max Buzzard will face the same kind of task as did football mentor Red Robertson. After losing several outstanding boys from last year's squad, Buzzard must try to mold another championship club out of a group of transfer students and freshmen. The outlook would not be so bleak if it were not for the fact that competition has greatly improved this year.

Presently finishing their third week of practice, Buzzard's group of some 20 roundballers show many reasons for optimism. Most of these reasons can be summed up in one word, "offense." As it goes with almost all basketball coaches, Buzzard will have to work a great deal with his team on defense before they will be ready to meet the challenge of such squads as Cameron, Eastern and Coffeyville.

Although the official season doesn't begin until the NEO tournament held in Miami Dec. 1-3, an indication of things to come should be given Nov. 21 in Riverton, Kan. Kansas State Teacher's College junior varsity from Pittsburg will go up against the Norse in a dedication game for Riverton's new gymnasium.

After that assignment, the Norsemen will return to practice for the season-opening tourney, scheduled in the eight team field at Arkansas City, Coffeyville, Oklahoma Military Academy, Northern, Beacon, Clark Bible College, and NEO. From then on is it's dog out dog in the always tough Oklahoma JUCO conference.

In comparing this year's opposition to that of 1960, Buzzard

seems convinced that things will get much rougher this winter. He feels that no team from last season can match the powerhouse building up in Cameron junior college.

Last year the Aggies relied upon 6'4" freshman LaDon Radford, This graduate of Tulsa Webster. This only four defeats. The fact that three of the first seven boys are transfer students from four-year

colleges makes the picture a little brighter. Calmus attended Oklahoma State University last year, while Bray and Halligan played for last year's Tulsa University freshman squad.

season they have added the most talked about lad ever to step onto an Oklahoma high school basketball court, sensational Jim Barnes. Barnes, a 6'3" standout at Stillwater, has been in the state news-

papers more than some of the presidential candidates.

In addition to Cameron, Buzzard expects a lot of trouble from Eastern A&M and Coffeyville. Eastern boasts the ever-dangerous Willie Barry and a host of other great high school players.

In regards to personnel at Northeastern, the fast-breaking specialist highly praises the play of Radford's teammates at Webster, 6'3" former All-State Merle Calmus. Also figuring prominently in Buzzard's plans are David Bray, 6'5" All-Stater from Lindsay, Tom Halligan, 6'3" All-Star from Centerville, Pa., Dave Tadlock, 6'3 1/2" freshman from Columbus, Kan., and Marvin Sun Eagle, 6'1" guard from Pawnee.

One worry will be a lack of lettermen from last year's co-champions. Only Wayne Epperson, 6'4" center from Nowata, and Johnny Walker, 6'3" forward from Columbus, remain to steady the corps. Walker is still ailing from a knee injury, and his status is doubtful. The way things look it will take a lot of work to match last year's season record of 22 wins against

A COURTNEY WE WILL GO—With football just barely beating the weatherman, NEO students can now switch to the warmth of the Miami civic center to view the 1961 Golden Norse basketball team. Listening to the words of head coach Max Buzzard are, from left to right, Marv Sun Eagle, Wayne Epperson, Tom Halligan, David Bray, Dave Tadlock, and Merle Calmus.

Any student who feels he is eligible for Phi Theta Kappa honor society and has been overlooked should contact Mrs. Doris Barnes, head of the college Language department, immediately.

Cameron Dethrones Fighting Norse

NEO Falls To Nation's Best; Blitzes Coffeyville

Giving sound reason for their position as the number one team in the Northern division of the junior college ranks, the Cameron Aggies capitalized on several errors by a fighting eleven from Northeastern A&M to beat the Norsemen 26-14 and win the Oklahoma JUCO championship.

It was the first time in five years that the Miami team had failed to win the crown, as the Aggies returned to the state league after competing for three years in the Texas dominated Pioneer Conference. After absorbing their second loss of the 1960 season, the Golden Norse went back home to ride roughshod over a highly regarded Coffeyville squad, 35-6.

Northeastern took the opening kick, but could not move the ball in three tries. Punting specialist Freddie Martin was sent in to kick the Norsemen out of trouble at their own 29, but the maneuver backfired. Ted Olson, the Ag's 180-pound end, raced through the line to block the punt and recover it in the end zone for a Cameron touchdown. Stewart Tonemah's conversion kick gave the Aggies a 7-0 lead.

As time was running out in the first half, Cameron halfback Melvia Scott intercepted one of All-America quarterback Gene Hart's passes and returned it to the Northeastern eight. It took reserve signal caller Jim Cabiness three attempts, but he finally connected with halfback Joe Harris for paydirt and a 13-0 lead at half. With less than two minutes remaining in the third quarter, the

Norsemen broke into the scoring column when a sophomore end Wayne Jordan blocked a Cameron punt and teammate John Estes recovered it in the end zone for six points. Hart kicked good and the Norse trailed 13-7.

The scoreboard read 19-14 after each team had traded intercepted passes for touchdowns. Scott again was the culprit for the Aggie cause as he took the ball out of the hands of intended receiver Bob Bruno and raced 60 yards for the counter. Bruno then intercepted a Byron Beaver pass and scampered to the Cameron 33 before being hauled down from behind. A pass from Hart to Bruno netted the

score for NEO. The clincher for the Ags came after a fine punt return by Oscar Pickering to the Golden Norse 21. Terry Does went over from the end, and Cabiness ran around left end for the two point conversion.

The Coffeyville Ravens didn't have time to say "Massachusetts Mauler" before the Norse fullback Bill Carlyn had cut their line to shreds and gave NEO an early 24 lead. Carlyn had eight carries for 36 yards when he went over from the one-foot line. The Mauler did not stop there, however, as he picked up over 80 yards in the first half in helping the Norsemen to a lead of 21-6.

Also a prime factor in the early scoring blitz was the passing of Hart. His daring aerial bombardment accounted for huge chunks of yardage and two touchdowns before the half ended. One of the scoring passes was to All-American end Donne Pitman.

Taking the kickoff after intermission, the Norse again moved down the field like a machine. Going 90 yards in seven plays, Northeastern scored from 33 yards out when Hart dropped back and threw to Jordan for the fourth score.

After being stopped on their next drive, the Golden Norse put the Ravens in trouble with a Hart

punt that went out at the one-foot line. A third-down punt by Coffeyville was blocked by Jordan and recovered in the end zone by All-American tackle Ronnie Ellis. The score read 35-0 after Hart made good his fifth straight conversion kick.

Coach Red Robertson then sent in his reserve units and watched the two teams move back and forth on the football field until late in the game when the Ravens finally pushed across a six-pointer.

The inter-state victory ended another great season for NEO. The Norsemen compiled a record of eight wins against only two losses. Both of these defeats, however, were met at the hands of the nation's top teams. Previous to the squeaker by Cameron, Tyler had been the only team to best the defending national champs. Tyler is the number one football squad in the south, and thought by most sports enthusiasts as the best junior college team in the nation.

EVERETT'S X—George Everett, Northeastern A&M halfback, would probably like to call a time out until some of the Coffeyville tacklers get out of the way. Everett made many fine returns of punts and kicks with line blockers such as the one which Bob Richards, freshman guard, is about to make.
