Platter Chatter BY JACK JEFFERY

Simple, sexy and sad. That is Rosemary Clooney. One of the most popular singers of today and she can't even read a note of music. The 25-year-old star says "I never thought to learn to read notes, it can tell when the tune goes up or down, but I can't tell how far. When she is asked why she doesn't warm up before singing she says, "What do I have to warm up?" But Rosemary really knows how to put a song across to the 14-to-22-year-olds.

As she prances up to the mike in her smoking feet, Rosemary drops her mouth down into the palm of her hand, makes a noise of the central rooms of Columbia Records and opens her mouth. If the tune is for her hand, makes a noise of the central rooms of Columbia Records and opens her mouth. Fashion Formula

Since this is the last edition of Fashion Formula for the year and next month is the ever popular month for weddings, I am going to give you some information that I hope will be useful in planning your wedding. From the looks of all the engagement photos that I see that many of you are going to need such information in the very near future.

The first step, of course, is setting the date of the marriage. Three months is considered adequate time to plan a wedding. Of course, this would depend entirely on the type of wedding that is to be planned.

The first questions you should ask yourself are: What kind of a wedding do I want? Time of day? Location of wedding. Church or home? Will there be a reception? If so, where? How many guests should I have? How many can I reasonably expect? The latter question is very important. It is very hard to have a larger wedding than your particular budget can afford. Simple and inexpensive weddings can be very lovely, and although expensive ones may be very beautiful, they are not worth the resulting strain when they become a financial burden.

As to the question of who gives the wedding, the parents of the groom should never give the wedding unless the bride's parents are unable to do so.

The engagement announcement is the next step. If you are in doubt as to what to say, let the newspaper handle the story or one might find magazines printed especially for the bride-to-be containing information concerning this matter. While this of this you should also consider the invitations and also depends on the size of wedding which is desired. Some authorities even advise proper for the small wedding. For the larger weddings however, engraved invitations are a must.

Last, but not most important of all is the wedding dress. For smaller weddings you might choose a street dress. Keep this in mind if you choose a dress, though, be sure that it has very simple lines. It is a mistake to have a dress that is more elaborate. A wedding dress is the dream of all the female race and you can't beat a smart suit for the small wedding. This seems to be the most popular idea.

If the wedding is to be a large one, keep this in mind if you choose a dress, though, be sure that it has very simple lines. It is a mistake to have a dress that is more elaborate. A wedding dress is the dream of all the female race and you can't beat a smart suit for the small wedding. This seems to be the most popular idea.

Over the years the wedding dress has changed. Even the color of the dress. For years white was the only color ever considered. Now more of the brides on the market are of stunner pastel shades. However, white is still the more popular and most appropriate.

I hope my suggestions have helped and that you will have a wonderful wedding. There is no failing as a bad wedding. Every girl thinks her wedding is perfect, which it is. Every bride is lovely regardless of the expense involved in the dress. Keep these things in mind and save all the expense possible. You will need your money much more after you are married and living up a home.

If the tune has a heave, her face lights up and her trim, spring-bounced figure jigs happily; if it's a sad ballad she looks as if she's just like me.

Most of the time the public believes that Rosemary Clooney was created overnight by one record, an Arm and Hammer calcium called "She's a My Home."

"Come On My Home" did make the p.A. list. Clooney-conscious White Sox pitcher William Sawyers had his cousin Ross Biggs...

Trackmen Crack Three Records At Coffeyville

NEO's endermen scored their most decisive win of the season as they shattered three Meet records and came within one second of tying a fourth in winning the Coffeyville Relays at Coffeyville, Okla.

The Norse relay team of John Barham, Bill Burgess, Lorne Graham and Jim Winters flashed to new marks in the 400, 800 and 1600 yard relays and the 800-yard relay and the Burgess, Graham, Winters and Bill Kerr combo set a new standard in the sprint medley.

The Norsemen recorded a time of 4:47 seconds in the 400 relay, 12:16 seconds in the 800 and 14:11 in the medley. NEO with the mile relay with a time of 2:30 seconds. The record for the mile on the Coffeyville track is 2:24 seconds, set in 1949 by Arkansas City.

When asked about this Jim replied, "It was the easiest touchdown I ever made!"

The 20-year-old wingman stands six feet, six inch and weighs 190 pounds and is a very good prospect for some university team.

Jim is not yet made up his mind clearly where he will enroll next fall but reports he is considering Wichita and Arkansas universities.

Thompson graduated from Wagner high school in 1932 where he played four years of football and basketball and two years of baseball. During his junior and senior years he made All-Conference in football scoring eight touchdowns in his senior year.

Norse Athlete Will Enter New Mexico A & M This Fall

One of NEO's outstanding athletes, Bob Hugg, will be among the more fortunate when the regulations are issued this spring at the commencement exercises.

Bob, known as "Boss" to his friends, has lettered twice each both in football and basketball while attending NEO. The Pryor, Okla., native keeps in shape during the spring by pitching softball for the intramural Business Club.

Playing and kicking off are perhaps Bob's biggest assets in football as past returnmen indicated. His "Magic Toe" had an average of 48 yards per kick in the Junior field last December.

There are very few universities who can boast of a kicker with a 48-yard average.

Besides playing center on the football team, Hugg held down
