

# NORSE NWOK Logic Model

## Problem:

Lack of peer and subject matter expert (SME) review of Learning Objects for classroom use

## Sub-problem:

Need to identify peers who are knowledgeable in the content standards.

Need to identify peers who are knowledgeable in Native Ways of Knowing -tribal subject matter experts.

## Activity:

Create learning objects for distribution to educators.

Learning Objects will be available through <http://www.neo.edu/nwok/> after peer and Subject Matter Expert Review.

## Goals:

Create an online repository of learning objects using Native Ways of Knowing

Provide all Learning Objects available to the public.

## Objective:

Using appropriate tribal SME, participants will create a variety of Learning Objects.

## Short Term Outcome Measure:

Content will be developed for appropriate content level use

## Long Term Outcome Measures:

Graphics, reference materials added online for ready-to-use Learning Object.
