Northeastern Oklahoma Junior College is located in Miami, Oklahoma, and for some of us this is home for almost nine months. As freshmen, we arrived in a state of awe and amazement with questions of "how" and "if" we would make it through two years at this institution. We were backed with a little courage, for we had braved the terrors of pre-enrollment unlike many others. We were bewildered, lonely and uncertain as to the reasons for leaving the security and comfort of family and friends.

These reasons differed greatly; however, we had but one goal in mind—an education.

We came with the idea of staying here to get educated, little knowing NEO would soon become home. Those cold, brick buildings seemed heartless at first, but they soon took a different meaning. However, it was not familiarity with the buildings that changed our attitudes but us. It seemed like an unending process of changing those casual "hi's" and "How are you's?" into long and probably lifetime friendships.

For the sophomores returning meant the reuniting of old friends and becoming acquainted with many new faces, while feeling sad by the absence of friends of the past year whose path had led them away from here. We, unlike the freshmen, were not scared but, instead, excited to be returning to our winter home.

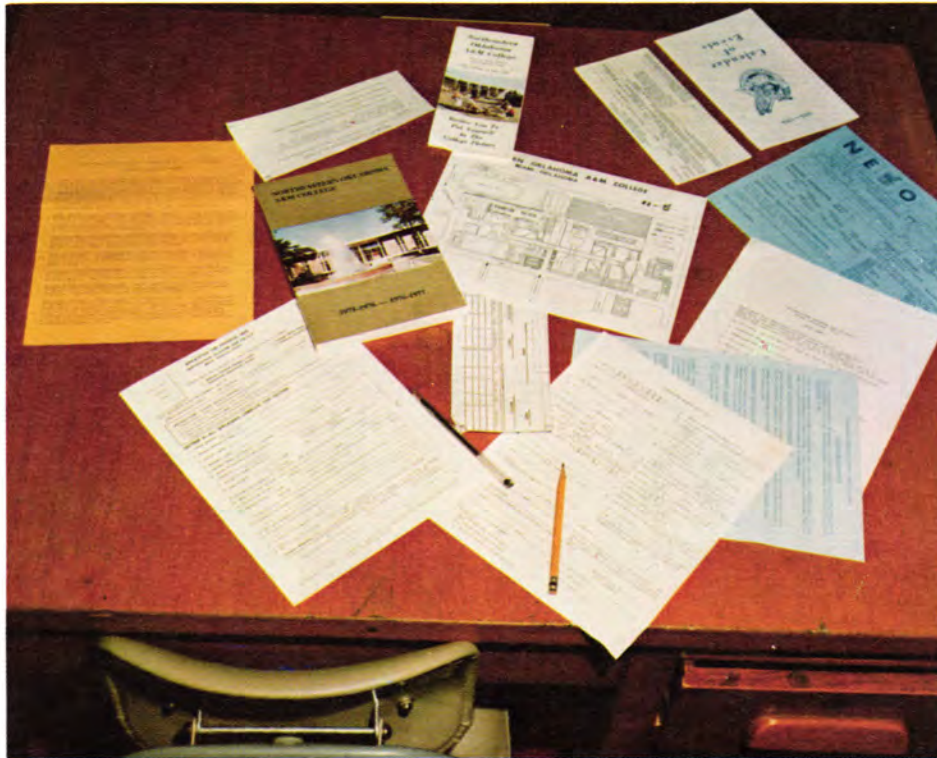

The chimes and the fountains greeted our arrival, spruced up and looking grand. Though the school had some new additions for us like tennis courts, an ice cream machine in the cafeteria, bubble gum machines in the Student Union, air-conditioning in Shipley and Cunningham, and remodeled lab rooms, we were more excited about the new information and people we would pick-up while here for our education.

As freshmen we had our first encounter with pre-enrollment—one of the many plagues of a college student. Pre-enrollment should be classified as Excedrin Headache #1407. It is discovering that all the classes you absolutely have to have, have already been filled. It is filling out multiple forms that ask everything short of how many times you brush your teeth a day. It is standing in one line for forty-seven minutes with a blue card only to find you needed an orange one. It is thinking you've got everything completed and being "surprised" by a five dollar parking permit. It is standing for an hour in line and as the third person in line seeing the lady hang up the "out to lunch sign." It is standing in this line and trying to act like you know what you're doing, when you don't know what you're doing because you don't want everyone else to know you don't know what you're doing and you don't realize yet that no one else knows what they're doing. It is trying to figure out the course number from the NEO number and finding out that General is no longer an accepted major.

It is the end. You have reached your final destination—the last line. You're tired, worn-out, harrassed, and totally disgusted. Your hair has the inevitable frizzies. Your nerves are strained and your complexion shows it. Your eyes are drooping and bloodshot, your shoulders are sagging, and your mouth has forgotten what a smile is. It is then that you discover that the line you are in is to take pictures for the 1975-76 Viking.

After pre-enrollment we began to consider ourselves students of NEO. However, the real test began on August 25, as our alarms went off and we started our first day at college. As freshmen we observed the cool, calmness of the sophomores and inside our hearts felt they were laughing at our uncertainty. Yet, the sophomores through the freshman maturing process saw only themselves reincarnated and desired only to help. It didn't take long for sophomores and freshmen to become one without feelings of upper or lower classmen.

Freshman orientation began a long list of traditional activities followed by an invitation for the girls by the sophomore football jocks for a dunking in the fountain, which would soon be commonplace. That night jeans can be seen dripping from the windows in the girls' dorms.

Then there is the morning when you stumble from the dorm only to face a mysterious puff of bubbling foam. The mystery is abolished when you reach ye old dunking grounds and find the fountain has become one gigantic bubble bath. This same bubble bath doubles as a home for various fish and crawdads at certain times of the year. You might call it a multi-purpose fountain.

The *Norse Wind* ushers in tradition with articles on formation of clubs, discounts, coupons and editorials. Additional discounts are provided for us by the Welcome Wagon ladies who do their best to make us feel at home in Miami. Student Senate follows through in helping us feel at home in the dorms by furnishing refrigerators for a nominal fee.

Norseman spirit develops quickly with the games, homecoming, and Wednesday night in Kansas. Thursday morning is spent wondering about the writing on the sidewalks. Which Nancy just turned 18? and is it the Pete you know that is now twenty-one? And from the writing on the walls of Commons we wonder just how well our jocks are loved. We realize that tradition has become a life-style when we can no longer find the doors to the Library-Administration Building for all the announcements and VOTE FORS . . . plastered together.

In our spare time there was a variety of places to go, and things to do. After class we often met in the lobbies of our dorms and just rapt about new information we had picked up in one of our classes; other times we went to the lobby just to sit in front of the "boob tube" just to sort of be able to stare and think on things and sort them out. If music and food were what a body required at the time, a person could hike it on over to the Student Union or the pit. Foosball, air hockey, and pool became the popular of the inside games, but when a soul decided it needed some fresh air, whether it was sunny or rainy, there was always a good game of football or frisby they could get in on.

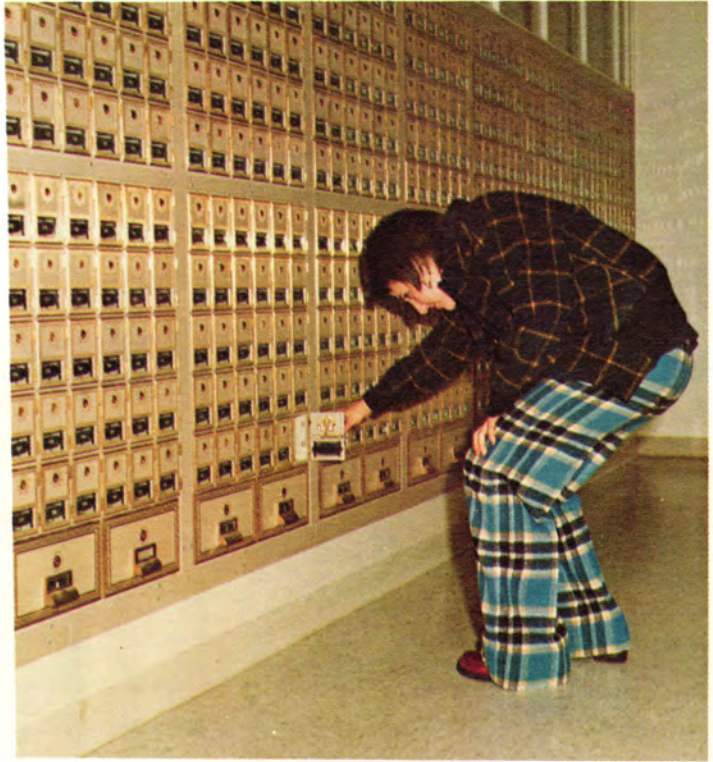

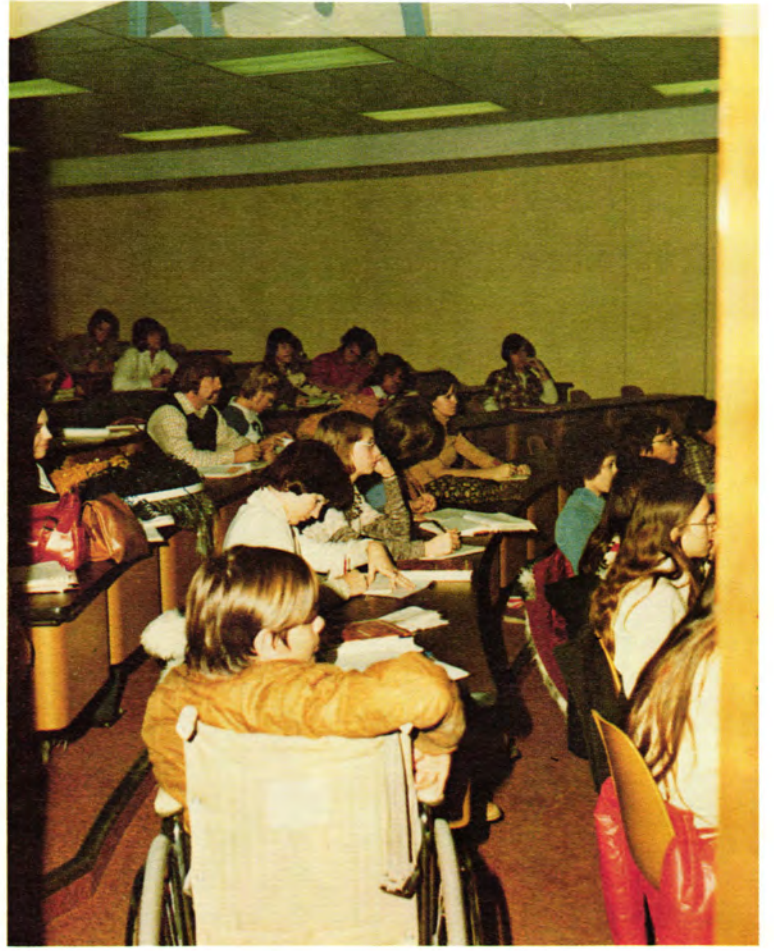

College not only means classwork for some of us, but it required jobs on campus to help pay for books, room and board, tuition, and all those nice tickets Dorthea keeps charging us for parking in the wrong lot. These jobs consisted of being proctors, teachers' secretaries, janitors, bookstore clerks and just general anythings. But our main job was still acquiring an education.

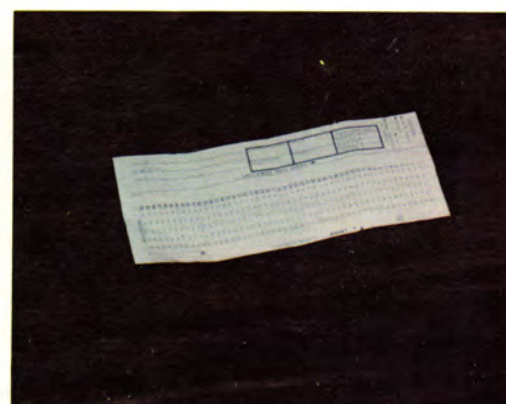

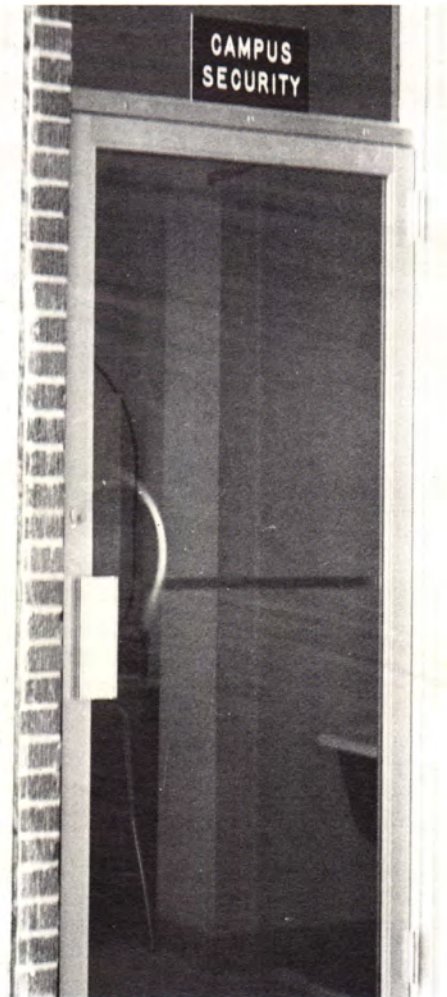

Most of our classes were taught in the traditional lecture, take-note type class. Some of these lectures were given on tape, so if the student didn't catch on to it the first time, the tape could be put on fast rewind and they could study the subject of that lecture again.

Teachers' offices were filled with pictures of family and plants so as to make them a place not to be feared by us, the students, but more as a peaceful place to talk about why we were not doing so great in the class we had under them.

Exams were a thing to be dreaded not only for those students of yesterday but for those of today. The 3-M answer sheets became very popular with the staff, while not that popular with the students in general. Students could be heard walking out of classrooms saying, "I don't think any of the multiple answers fit that question."

# The Honored

We are the elite. We were placed upon platforms by our fellow students and teachers. But most of us deserve the honor placed upon us by our friends because we gave more of ourselves than what we needed to. Many hours of school service without recognition was the reason behind our honor. But we were not working for the honor or praise; instead, we were just doing something worthwhile; the honor was just an added extra for us. But our real honor was knowing we were caring for something worthwhile, and that was Norsemen pride.

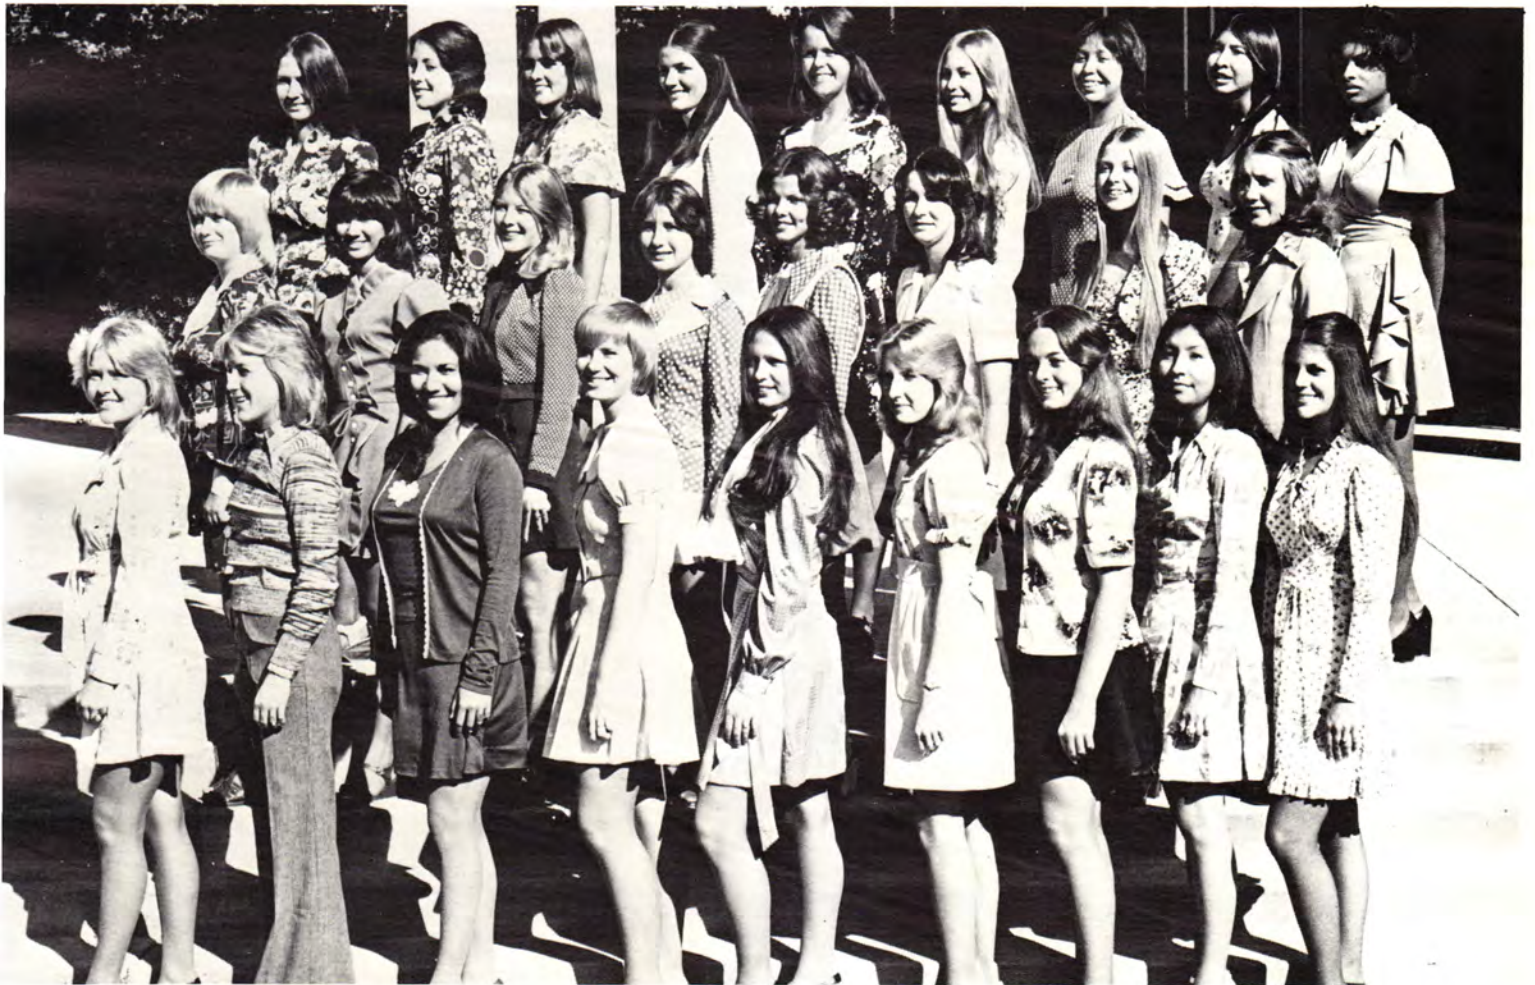

Among the highlights of the 1975 Homecoming festivities was the crowning of the Queen, Nancy Nichols. Nancy is a sophomore from Salina, Kansas. She is a Nursing Major and represented the Nursing Club as a queen candidate. Nancy was crowned by Joe Zacritz, Vice-President of the Student Senate, and escorted by Rex Kamler.

# The Students

We consist of many different types of people. But, that just makes it more of a learning experience for us. As we met each other, we learned a bit more about ourselves. We were what kept this school going and we were why it had been set up. Therefore we tried to make use of it's resources. The NEO campus comes to life with our arrival in the fall, and as we pack up, it seems to be more than just packing of a suitcase, more of an experience of placing behind us those events of the past year.

# Children's Christmas Party

The Children's Christmas Party is an annual event sponsored by Northeastern Oklahoma A & M College through the Student Senate. Each year names of youngsters who have need are accumulated through various schools and city and state offices. The names of these youngsters are then submitted to the college student body for adoption.

As many as 600 youngsters are adopted by approximately 1600 college students. The college students and their young partners then begin several days of festivities which are climaxed with an evening visit with Santa. The students visit the youngsters at home, take them out for treats, and escort them to the Christmas Party.

The college students spend approximately \$5,000 to assure a merry Christmas for their young friends. What do the college students receive in return? Ask any college student who participates and he will state that the main feeling is one of personal satisfaction, but that the feeling is also much deeper, difficult to express, capable only of being felt.

# The Organizations

We took the initiative to organize, campaign, enlist and then plan to get started with a active year of activities to keep involvement high on campus. We are responsible for getting things done or changed on campus. We have initiative which is what keeps this campus running.

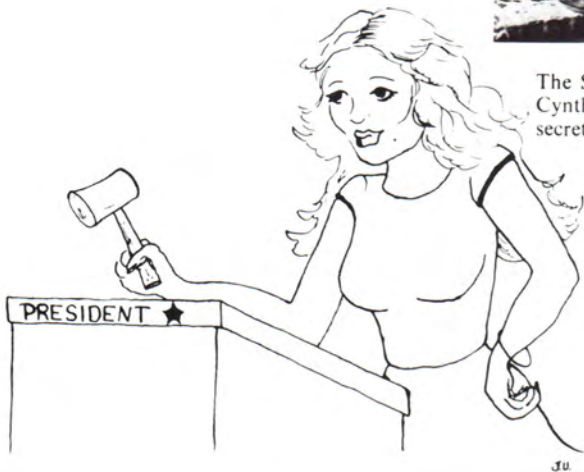

# Student Senate

Our organization consists of officers elected at large from the student body. The other members are from the various organizations around campus to represent each group. Student Senate meetings are held each Tuesday at 6:00 p.m. At these meetings, members discussed suggestions to help better the school activities. The Student Senate is used as a voice of the student body. All meetings are open to the rest of the student body.

The Student Senate officers for fall, 1975 are from left to right, Rhonda Hare, senator-at-large; Cynthia Sherrill, treasurer; Marcia Hill, president; Joe Zachritz, Vice President; Debra Rye, secretary; Gloria Graves, senator-at-large.

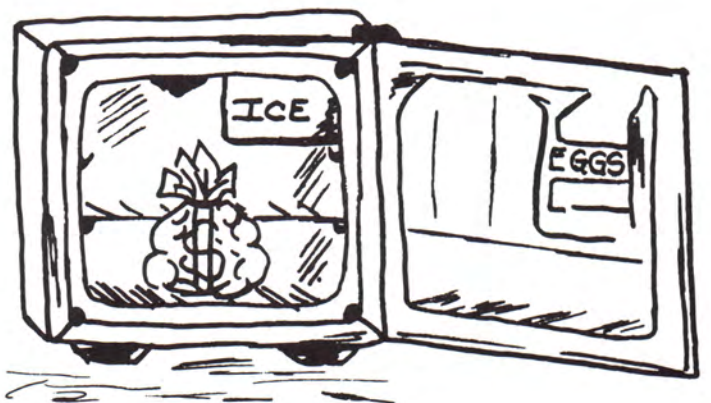

# Student Senate

Second Semester Student Senate officers elected for the spring semester are from left, Rusty McGhee, Senator-at-Large; Linda Bradley, Secretary; David Bringaze, Vice-President; Marcia Hill, President; Debbie Yocum, Treasurer; and Donald Faulkner, Senator-at-Large.

Second Semester Student Senate carries on the same duties and leadership as the first semester officers. They continue with their weekly meetings, as well as student activities.

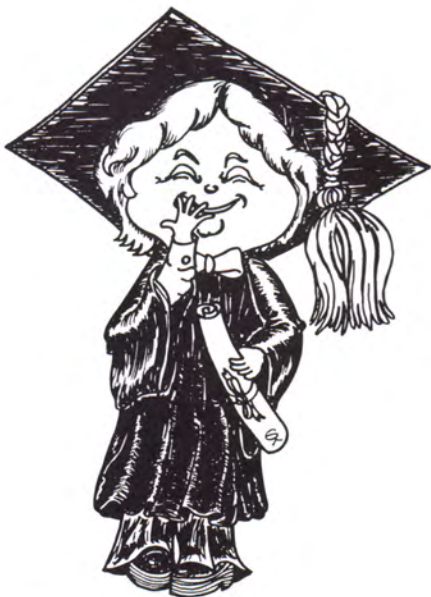

# Sophomore Class Officers

We are made up of all NEO students who have squeezed by with 23 or more *passed* semester hours of college credit. Our officers are elected in the fall to try and control the confusion for one year's term of office.

Every fall we sponsor a float for the Homecoming game. During the school, we attempt to provide an example of leadership.

The Sophomore Class officers for this year are standing from left to right: Bob Ray, Student Senate Representative; David Webbert, Vice President; Skip Cruzan, President. Seated: Cindy Hoffman, Secretary; and Lynn Alcock, Student Senate Representative.

# Freshman Class Officers

The Freshman Class officers for this year are standing from left to right: Tim Davis, President; Natale Robinate, Vice President; Dana Appleby, Secretary; Anita Schwaninger, Student Senate Representative; and Ken Simmons, Student Senate Representative.

Our group is all hopeful students who have acquired less than 23 *passed* semester hours of college credit. We sponsor many social or recreational activities, plus assume many responsibilities of the sophomore graduation in May. Officers are elected to try and straighten out the problems left us from the previous Freshman Class, while bettering our own finances for the year.

# Viking Staff

The Viking Staff started off with meetings on top of meetings. There were numerous problems such as trying to get a group of creative people to all reach a unanimous decision on anything. When the beginning problems were resolved, we got down to business to put together this book only to find that our problems had just begun. Problems

such as trying to get all of a club's officers together at the same time for their pictures, finding out which queen was for what team, and finding out if anyone on staff knew how to be creative when they had finals. But we got together and put together more than "just a book." We put out this book.

Through Norse Stars we are given the opportunity to gain poise, confidence, dance skills, and the ability to get more involved in our school. But the most important factor of our club is the recognition we gained through marching onto the field to "Hey, Look Me Over" every game, followed by a series of musical melodies accompanying our inventive dance routines.

# Cheerleaders

These are the nine girls who were our 1975-1976 football Cheerleaders at NEO A&M COLLEGE.

We were proud to be able to spread a little more of such a contagious disease, Norsemen Spirit. No matter which Norsemen team we were rooting for, we knew each team was capable of great things, and we tried to show our spirit by doing a few cheers . . . ?

These are the four girls who were our 1975-1976 wrestling Cheerleaders at NEO A&M COLLEGE.

# The Norse Band

We are the mighty Norse Band. Our organization enhances Spirit and character of this institution through our participation in sports and performance. During the first semester, we perform for pep rallies, football games, and parades. At football games, we march through the half-time activities accompanied by the Norse Stars. During the second semester, we devote our time to concert playing and attempting high school assemblies. At the completion of our second semester, we receive a band letter showing our successful participation in this organization.

The Norse Twirlers gave their share to Norsemen pride by bringing half-time entertainment for both football and basketball games. With performances of fire twirling and knife twirling by highly awarded featured twirlers along with the other capable squad members, Norsemen were able to see a good show. We feel the twirlers were a very fine group of people; they beat out the other football activity groups for the attention by far. We salute you.

# D r a m a

The Drama department spent another busy year of productions as they brought to us such plays as, *Our Town*, *Fiddler on the Roof*, and *Oklahoma*. Endless hours of rehearsals, set designs, and costume designs were spent to bring together these productions for entertainment. Their time, effort, and talent is greatly appreciated and certainly was enjoyed.

# Masquers

Officers are from left: Jim Reid, President; Martha Smithling, Vice President; Lynne Alcock, Secretary; and Jane McKenney, Treasurer.

We are the theater club of Northeastern Okla. A&M College. Our purpose is to further our interests in acting and other theatrical abilities which we may feel we need in our educational fields. During the year, we participate in various play productions and help with the assemblies.

# A I D D

Recognizing that educational training of designers and draftsmen is of a significant importance to industry and the profession, the AIDD program provides an evaluating curricular leading to the certification of schools offering curriculum in design and drafting. Our purpose as Student Chapter is to produce a procedure whereby the AIDD can help students meet the standards which are adequate for preparation of graduates for job placement.

# Baptist Student Union

Our members are college students who belong to a local Baptist church or one of the related Baptist youth organizations. We try to promote religious growth and spiritual development for the individuals with Noon Day evening prayer groups, sponsored singers, and conferences. The B.S.U. building is open for everyone to study, play the piano, and play ping pong. We welcome students to come and visit our group at anytime.

# Business Club

BUSINESS CLUB

Class members of Creative Writing 2133, taught in the English curriculum by advisor, Raymond Boyd, serve also as IDENTITY staff. For the current session, Clark Osborn served as editor; Kathy Middleton, co-editor.

The copyrighted IDENTITY magazine, the campus literary publication, contains written and illustrative artistic work of both faculty and students. The Spring/Summer edition of 1976 invited the reader to share in a variety of multi-sensory experiences, as well as to write for the IDENTITY Bicentennial Writing contest offering cash awards. Students were encouraged to write, allowing themselves the widest latitude from freedom of thought, imaginativeness, and expression for INDENTITY'S sixth edition.

Our purpose is to get people more interested in young children and to learn the importance of early education. We also try to show parents and teachers of young children what is most important in their lives as young children.

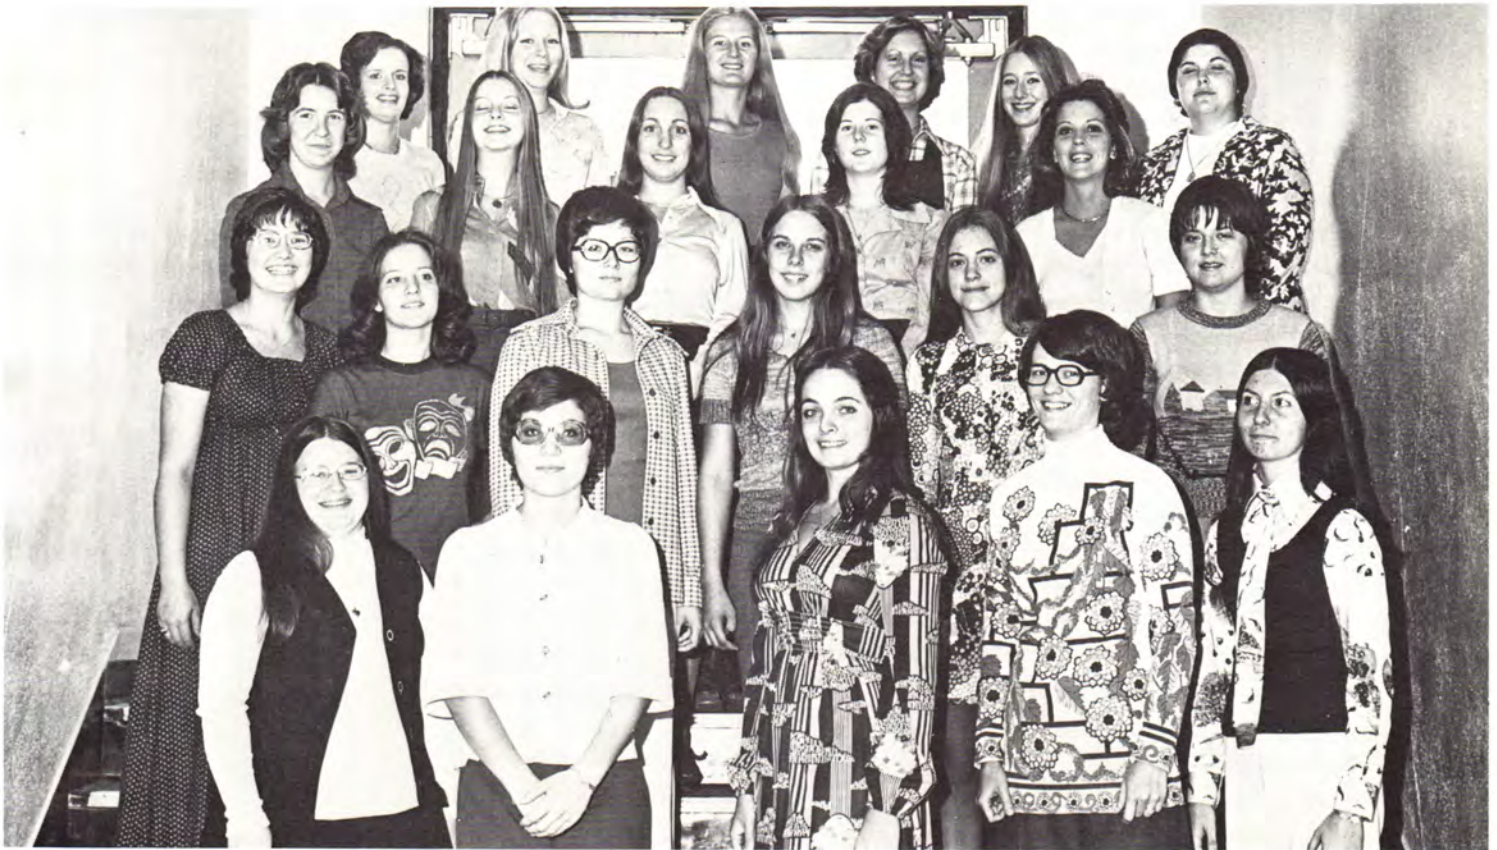

# Norse Campus Ministry

We try to provide a place where people can come and relax plus learn more about God. We hold sessions in the afternoon and evening to talk about God. One of our activities was holding a Thanksgiving dinner for those people who had no place to go for the holidays. We have also sponsored various speakers and intend to sponsor a float trip. There are many other functions that we urge everyone to attend.

We are the thankful Freshman women dorm residents who were able to pull off a 3.5 or higher grade average. By accepting a membership, we agreed to help our fellow residents in getting adjusted to college life. Our silver emblem symbolizes the necklace, Brisingamen, the prize possession of the Norse goddess, Freyja.

# OSSNA

Fall semester officers of the OSSNA are from left to right, president Ruth Davies; secretary Kathy Sullivan; senate alternate Kathy Kleckner; second vice president, Christy Henderson; treasurer Nancy Rowe; senator Pam Taylor; first vice president Jan Thomas.

We serve as a branch organization to the statewide component. Our purpose is to "aid" in the development of the individual student and encourage students of nursing as future careers. We also want our members to be aware of and to contribute to the health care of all people.

Qualifications of character, leadership, and service along with a 3.0 GPA made up our group. Our club made their contributions such as our homecoming float and the Christmas Dance. We strived hard to uphold the reputation of Phi Theta Kappa because it is an honor to be a member. We have a beautiful initiation ceremony every year, plus this year we sponsored a wild hayride on a cold night. Our club is known for our high level of responsibility on the campus.

## Phi Theta Kappa

Officers are from left, seated: Shawn McKee, Student Senate Representative; Becky Wright, Vice President, Barbara Griggs, Secretary; Fred Downey, Vice President; Ted Probert, Treasurer; Rusty McGhee, President; David Synar, First Vice President.

Our club is an organization that enables students interested in journalism to meet and participate in activities concerning journalism. Our membership of the club consists of Journalism and English majors, the Norse Wind Staff, reporters, and other interested students. We meet together and promote good journalism.

We were all members of different teams, but we were all Norsemen which was what counted. When the competition got rough, we all rolled together to get things going our way.

Some referred to us as the "Snobs," "Cool Cats," "God's gift to the NEO campus", and a few other choice names. But, for the most part, we were just normal college students finding a way to let off excess steam, earn scholarships, or just serve the school.

Activities for us included weight lifts, running, games, and, like all other college students, classes.

# The Athletes

Norse Basketball Squad members are, front row, from the left, Charles Warrent, Kenny Hayes, James Hudson, Robert Moore, Greg Higgins, and Carl Byrd. Back row: Sam Ball, Henry Small, Miles Robertson, Ron Scott, John Payne, Ed Houck, and Cedrick Fears.

# Basketball

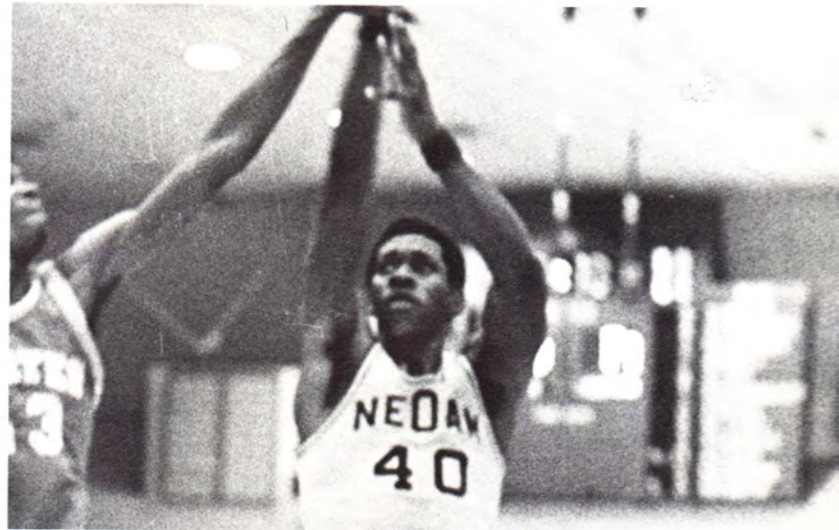

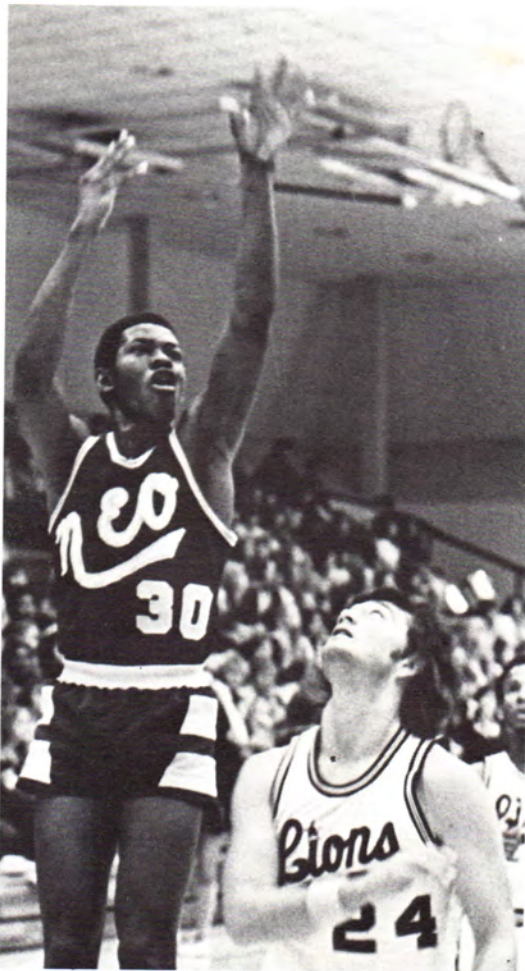

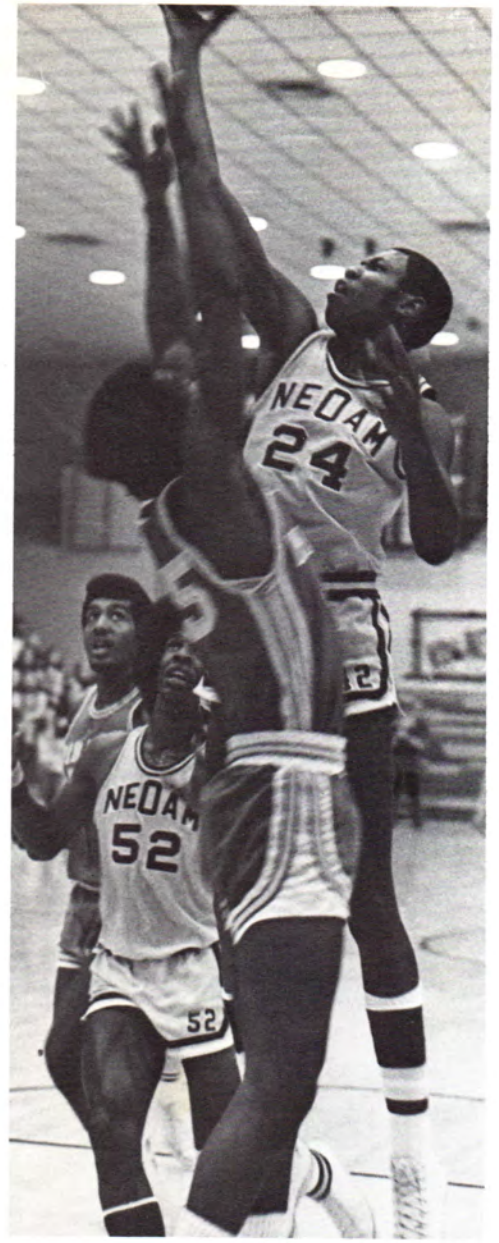

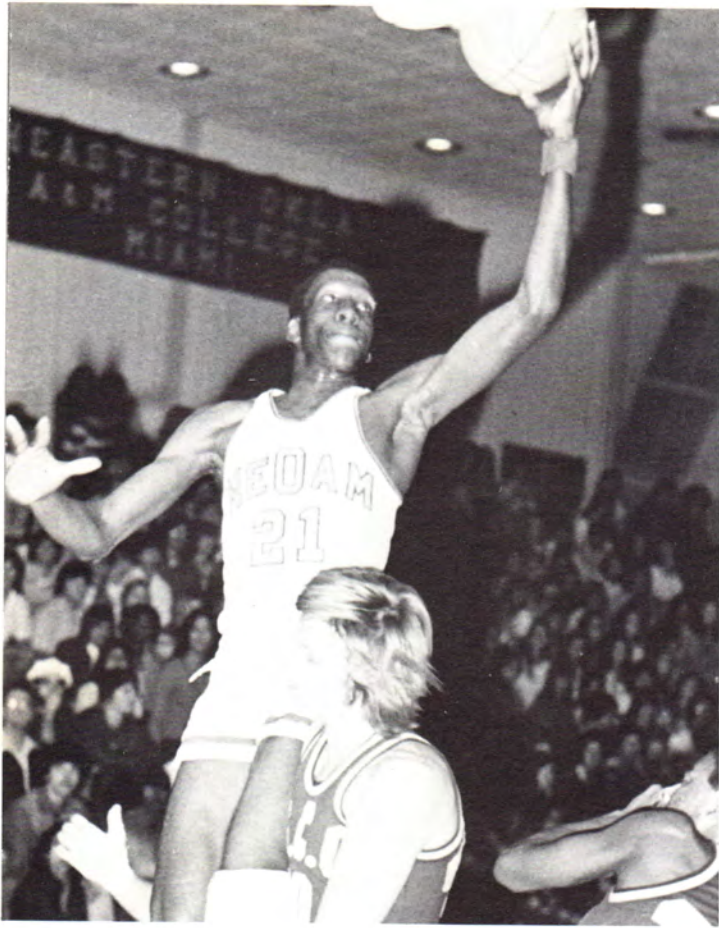

Basketball activities began with a rebuilding program, with mostly freshmen players seeking starting positions. The season seemed slow at first with a few losses, but team work and desire, plus ability, began to reverse the situation. Strong opponents were defeated, and the season became one equal to other seasons where the Norse will be remembered.

# Baseball

Baseball prospects tend to indicate a strong, competitive Norse squad this year, a definite contender for a regional title. Pitching is good, hitting is good, but the strongest asset appears to be the influence of defensive abilities.

# Football

We started the season with high hopes of being National Champs. We knew we were Norsemen and, therefore, were No. 1; we just had to prove it. Some of us were a bit scared. We knew our competition was tough but our coaches kept on telling us that we were the toughest and we believed them. Even our fellow Vikings backed us. They welcomed us with a Pep Assembly plus. We were no longer a football team attached to a school but instead the school and us made one big team. We couldn't be stopped—we thought.

We opened our season at Highland, Kansas to our disadvantage—off home turf. But we still knew we were best cause we had the spirit. But something happened—we lost. It was a hard fall for us. The trip was a long one back to the dorms for defeat was rough for us to accept. But we were Norsemen so no loss could get us down.

The next week was filled with practices on top of practices. We had let down our coaches and they let us know it. Hard work and no leisure time was what our days were filled with. The curfew of 10:30 for us was easily met. Who could ever stand up after those sessions? But the pep talks continued . . . . .

Our first home game we ran on to the field with our heads up. Our fans joined us in the traditional Norse row followed by our fight song. We started off by fumbling the ball—it hit us hard. Some of our fans began to cut us short. But even more lost faith when the Blue Dragons scored, until we finally got all our rowing together and beat them by 14 points. We met our victory with enthusiasm and Norseman pride. We were the conquerers and our plans still included that National Championship.

Again on Robertson field we met our opponents with the idea of winning. But things were tougher than we thought they would be for, as we ran off field at half time, the score board showed a score of 0-0. But the coaches helped us get our stuff together to work as a team and sock it to the Highland Scotties. Victory Again!

But the Golden Norse had just begun to shine through, for the next week we were back on the field with the Haskell Indians. Not only did we shine—we raced through to stomp the natives. Victory was so overwhelming we ran out of fire crackers to touch the sky—but not out of spirit.

Homecoming afternoon all the talk on campus didn't just focus on our lovely queens but also on how much of a lead we would attain by the final score. Nothing of "if" we would win but by *how much*. The Robertson field had not faced defeat in 39 games. No one had thought at such a time of festivities, we would feel such a low blow as a loss of 21 to 18. Defeat! A word we hadn't even considered at the opening of the season. Here it was on our doorstep.

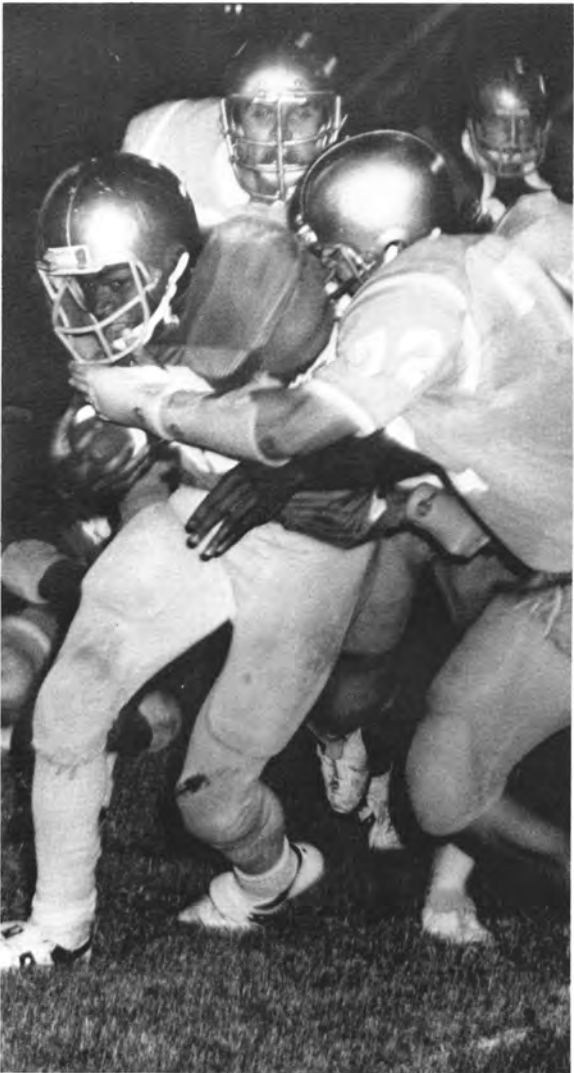

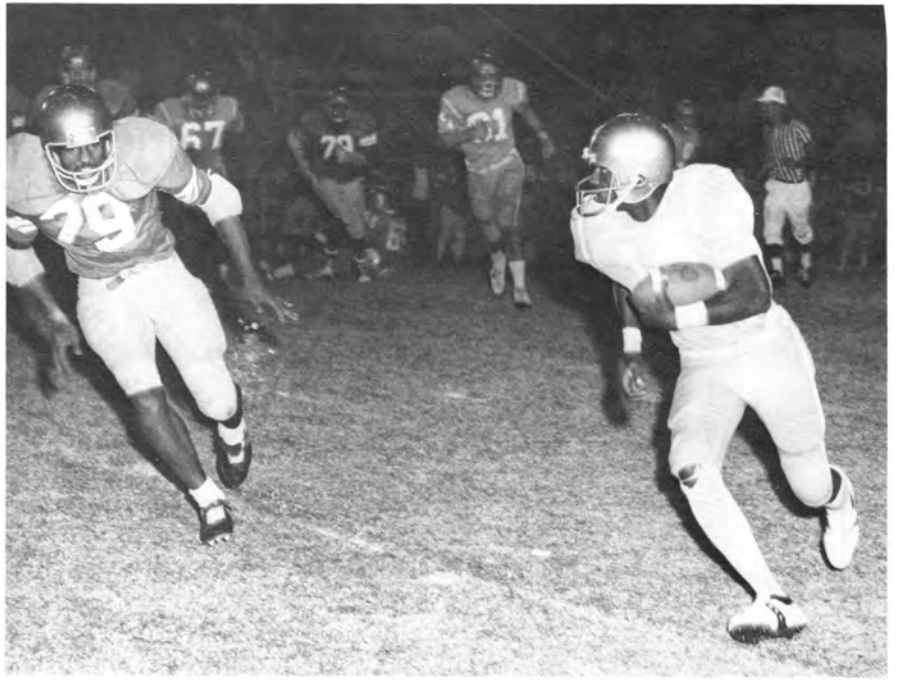

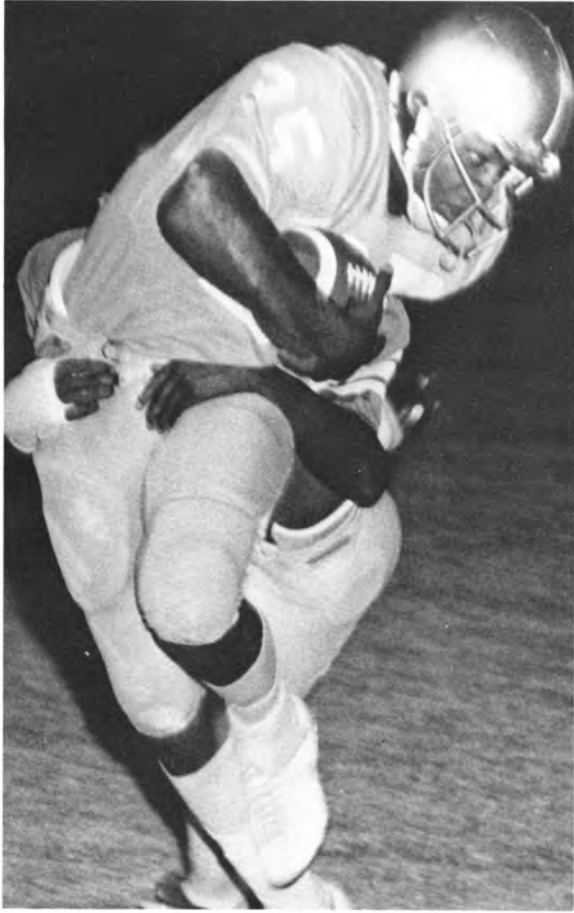

... back to school with a bit of our wind knocked out of us, not only by our most recent defeat but also by the reaction of our school and coaches. Back to the grind stone of practice. We had mixed emotions—we felt like hanging our heads in disgrace. We had lost yes, a word not mentioned on the NEO Campus, our classmates passed us in the halls with either looks of disgrace or cutting comments. We lost yes, but we had tried.

So off home field again we went to tackle the Coffeyville Red Ravens. But again our score turned out short and loss was still a part of our vocabulary.

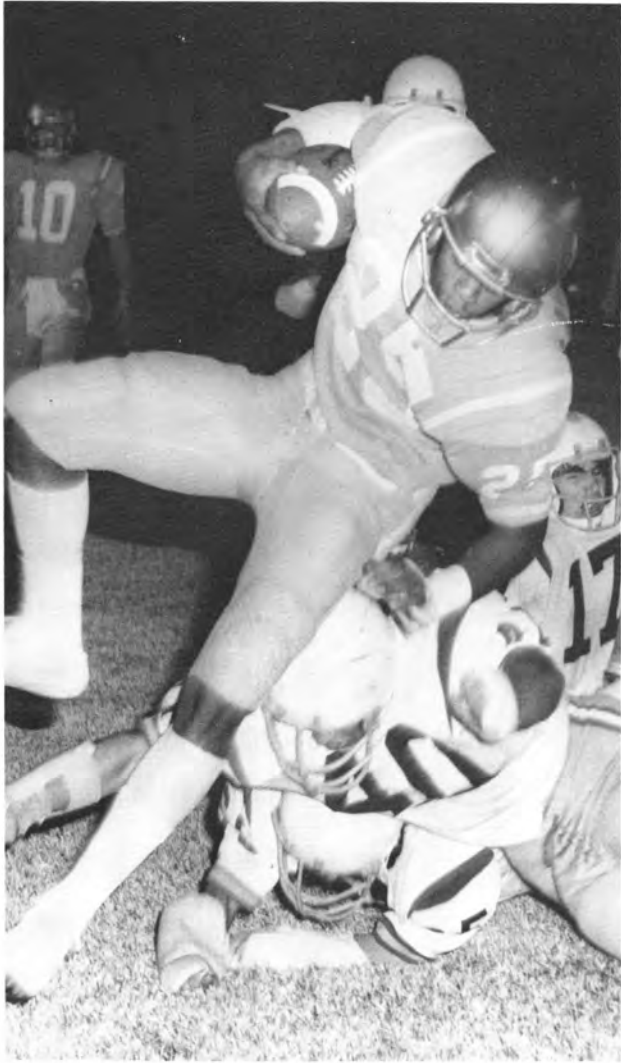

We returned home determined to win the game against Tulsa Jr. Varsity. We had enough of defeats and were determined to work together and get back our winning streak. And we did.

But that streak didn't last long for we were back on the road and as our record showed we needed a victory. By the end of the third quarter we were sure we had it wrapped up with the scoreboard showing a 20-7 lead over the Pratt Beavers. But again our fans, as well as us, were surprised as the Beavers ran over us to beat NEO by 5 points in the last quarter.

Our last away game was scheduled against the Fort Scott Greyhounds, we needed a victory bad—as our season showed we now stood 4-4 with only two games left. Yes, a victory would really help us. But again a victory was not what met us at Fort Scott.

We returned home to realize that defeat again would mean a losing season for us. So we raced on the field with the roar of the crowd knowing we would shine that night and give our fans a game they would not forget. We played a very hard game but we won.

Though we didn't meet our goal of being National Champs, we did roll together as a team and now can say "I am proud to be a Norseman forever."

# The Educators

We are the group that consist of administration, counselors, teachers, and to some we were even classified as friends.

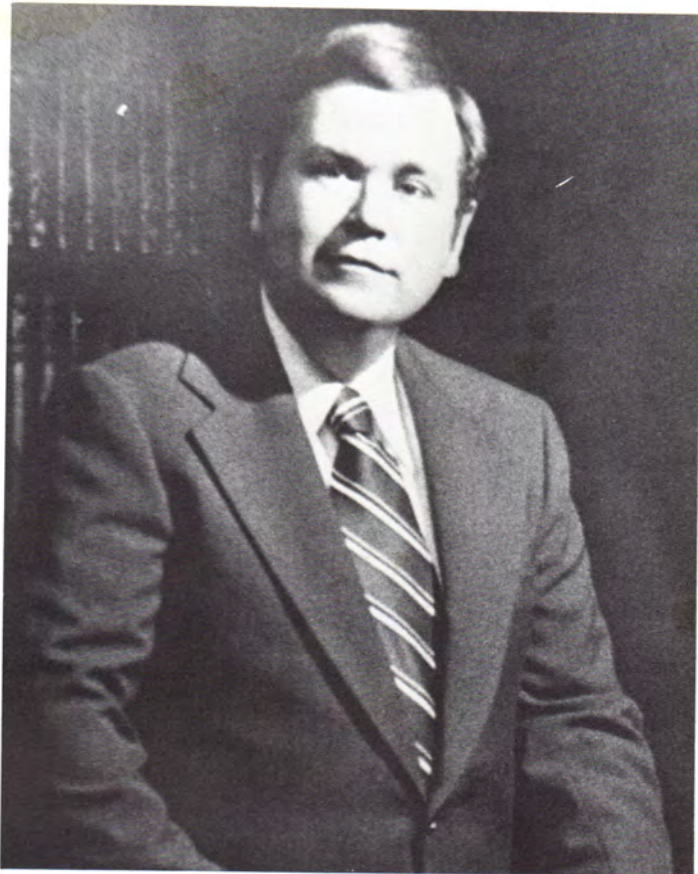

We tell our students we are here to help them climb the ladder to a higher education, though some of us are often accused of standing in the way. We sweated and toiled to be sure our students grasped the full meaning of our lectures. We had problems though, some students never realized how many hours of preparation went into those long, boring lectures or how often we tried to revise and update our jokes, as well as classwork, to meet the demands the students must meet to face the challenges of tomorrow.

You can tell about us by looking at our desks. They are filled with national news, food, and new discoveries in our field of study.

We didn't accept the fact that when classes ended for the day, we are finished for we are busy planning for the next.

Like the loneliness that surrounds the empty football stadium, we leave this college feeling the same emptiness and sadness. We reflect on all the happy, as well as the sad, moments we relate with this place. As we leave, we realize NEO has played a big part in the growing up process and that we will never be the same because of it. We know we will leave this place never to return the happy carefree, energetic college students we once were—our only consolation is our famous Norseman saying—“Once a Norseman, always a Norseman.”

# Acknowledgment

Special recognition is given to those staff members who worked beyond normal hours, to Miss Kathryn Paige and her art students, Charles Don Kirk and Caroline Baker, to Miss Bobby Woods, and to Mr. John Goodman.

## The Viking – the NEO A&M College Yearbook

Digital copies of The Viking, Northeastern Oklahoma A&M College's annual yearbook, are available in .pdf format on the NEO website for non-commercial purposes only. Scans were created using the best available editions; where stains, color-fading, and contributed marks (usually signatures) were visible on the original they also appear in the digital copy. The edge of some pages in oversized editions may be partially lost due to width limitations on the scanning bed. NEO yearbook editions that do not appear on the website are not part of the collection at present. If you would like to donate a yearbook, please contact the NEO Library.
