Pre-enrollment of Fall 1963-64 Sophomores Set For May 14th

BY DAVID SIGSWORTH
Sophomore pre-enrollment for the fall semester 63-64 will be held Tuesday, May 14th from 1-4 p.m. in the Bruce G. Carter student union ballroom.

The object of pre-enrollment is to eliminate many of the problems encountered during fall enrollment, such as waiting in line, filling up of classes, and general confusion.

During the pre-enrollment period a student will be able to enroll in the classes he chooses before they are filled. He will have more time to consult advisers, and prepare his sophomore schedule.

Next fall, those who have pre-enrolled will have to spend only about 15 minutes securing their enrollment cards and getting them initialed by their instructors.

This frees the student of last minute details and allows him to get settled before classes start.

Pre-enrolling not only lessens the burden on the student, but also enables the college to ascertain the amount of additional classes which may be needed to accommodate next year's enrollment.

Any student desiring more information on pre-enrollment should consult Mr. Oran Need, chairman of enrollment.

Looking over some of the damage which occurred from a recent fire at their college apartment are Phil Howard and Danny Haynes, Oklahoma City freshmen. Haynes is holding a clock radio, which melted at approximately 10 P.M.

Faulty Electrical Wiring Causes Fire Damage to Apartment 17

With nearly 200 students on hand to applaud their action, Miami fireman put out a blaze Tuesday April 2 in Northeastern A&M apartment 17, a frame structure near the tennis courts.

The apartment is occupied by Ed Stockard, Phil Howard, Eugene Baker and Danny Haynes, who had not returned from a baseball trip to Kansas State college, Pittsburg, when the alarm was sounded at 10:15. They were repairing and cleaning the apartment Wednesday.

Holes were burned in a wall and ceiling. A melted electric clock had stopped at 10 o'clock. A short in wiring possibly caused the fire.

Students assisted in moving items out of the damaged apartment and two apartments next to it. Furniture and clothing were placed on the tennis courts and an adjoining road.

"It looked like a setup for a big rummage sale," a spectator commented.

The fire ruined some of the clothing owned by the four athletes.

June Johnson and David Sigsworth prepare a huge banner for Press Day. Over 200 students are expected to attend the annual event.

16th annual Press Day Today; Awards Given at 1 P.M. Banquet

BY CAROLYN MEADOWS
NEO's sixteenth Annual Press Day wishes to welcome each visiting high school student taking part in this annual event. The day has been planned to inform as well as entertain future Journalists. Registration will begin at 8:30 a.m. and close at 9:30 a.m. in the Bruce G. Carter Student Union.

Mac Sebree, state manager for United Press International, will give the address at the general assembly at 9:30-10:30 in the little theatre of the Life Science building.

Mr. Lang Rogers, executive editor of the Joplin Globe, will speak on journalism at the noon luncheon to be held in the Student Union ballroom.

Leading journalists in charge of the various discussion and lecture groups are; Wendell Redden, Joplin Globe sports editor; Roger Rickard Miami News Reporter; Lee Gilette, Tribune staff photographer and Grant Rice representing the year book division.

Lecture and discussion groups have been scheduled so that a student interested in attending all newspaper or annual sessions may do so without missing any.

Newspaper awards in each of the various divisions will be presented at the conclusion of the noon luncheon.

Tom Cannon and Gerald McGown, Aggie Club vice-president, prepare one of the many animals to be shown for Aggie day, April 13. The agriculture students are grooming and trimming a hereford steer.

Easter Vacation & Teachers Meeting Set Next Week

Classes will be dismissed all day Monday, April 15 for Easter, and resume again on Tuesday morning, April 16.

Beginning the following Thursday, April 18, at noon, and all day Friday, April 19, classes will be dismissed for the eleventh annual O.U. Junior College Conference. All state, municipal, and private, junior colleges in Oklahoma will be represented at the Center for Continuing Education at the University of Oklahoma.

Starting the program on Thursday afternoon will be registration, followed by a conference dinner with various entertainment and speakers.

Agriculture Achievement Day Saturday 1,400 Expected

BY J. W. BLAYLOCK

Northeastern Okla. A&M College's 14th annual Agricultural Achievement Day for 4-H Clubs and Future Farmers of America chapters will be held Saturday. Harry Synar, head of the college agriculture department announced Tuesday.

More than 1,400 entrants are expected.

The livestock and dairy judging contests will start at 8:30 a.m. at the farm. Other contests will start at 9 a.m. in the gym with registration starting at 7:30.

Entries have been received from 55 chapters, and 10 counties in the 4-H division from Oklahoma, Kansas and Missouri.

Competition will be in ten major divisions, livestock, dairy, crops, poultry, land judging, meats judging and identification, entomology, farm management and speech.

There will be movies and entertainment during the afternoon for students who have finished their contests.

The day will be climaxed at 4 p.m. in the Miami Civic Center with a buffet dinner, followed by entertainment and an awards program.

To be presented to the winning teams and individuals are 30 trophies and 75 medals.

BLIND CHOICE—Don Anderson a pre-law student from Hominy, compares himself with a survey depicting the average college guy. He makes a blind choice of a shirt from his wardrobe.

Survey Paints New Picture Of 1963 Mr. Joe College

So you think you're an average college guy? Try comparing yourself to these statistics and see how you measure up.

He is 20.6 years old. Twelve chances out of a hundred, he is married. He spent \$66 in refurbishing his back-to-campus wardrobe. It's an even bet that he owns or has full-time use of an automobile. He makes a point of being well-groomed and has already accumulated much of the gear of the good life.

This is Joe College, 1963. A mass of brand new information about the nation of male undergraduates is revealed in a new study, "Male College Student Survey" conducted by the research firm, Bern Management Corporation, in cooperation with the Market Research Department of Playboy magazine. Involving a sample size of 12,100 mail questionnaires, the survey results are based on final returns from more than 5,000 male students from 72 U.S. colleges and universities.

The survey shows that 11.2% of today's male students are married. 11.8% of today's undergraduates underwrite all of their college expenses, while 17.2% do not contribute at all to their college support. 62.4% live on campus, 22.4% off campus but not with their families, and 15.2% reside off campus with their families. 29.3% belong to a social fraternity.

As to outside jobs, the study shows that 52.8% work during summer only, while 30.3% work

both during summer and school year. 14.6% do not work at all.

How dependent are today's college students on the automobile? The survey shows that 36.7% possess their own cars while 10.7% have full time personal use of one. While December was still early in the current model year, 2.7% already drive a 1963 automobile, 10.7% a 1962 model, 8.4% a 1961 model and 7.6% a 1960 model.

50.4% of all male college students surveyed answered that they smoked: 41.8% cigarettes, 11.9% cigars and 14.8% pipes. Among cigarette smokers, filter tips were the favorite, with 68.5% preferring this kind of a cigarette. 14.5% smoke king size, while 22.3% smoke regular.

That today's college man is far from the "beastly" type is shown by the high use of personal grooming aids, 83.6% use after-shave lotions, 72.8%, shampoo; 69.3%, hair dressing; 41.4% cologne and 38.1% powder or talc. The survey also specifies what percent of students used each of the products "yesterday". For example, 91.3% used a deodorant, of whom 88.2% used it "yesterday."

While the median expenditure for back-to-school wardrobes in 1962 was \$68.07, 32% spent over \$100 and 8.7% over \$200. The typical student wardrobe consists of 2.6 suits, 2 sports jackets, 6.5 pairs of slacks, 3.8 pairs of shoes, 6.2 dress shirts, 10 sport shirts, 1.1 topcoats or overcoats, 1.4 other winter coats, 9 raincoats, 7 dress hats, 4.7 sweaters, 8.3 ties, 2.7 belts, 14.6 pairs of socks, 10 undershirts, 10.5 pairs of undershorts.

As to home entertainment, off-campus and on-campus, 49% own record players; 16.9% tape recorders; 63.1% table model radios; 16.5% television sets. In addition, 53.1% own transistor or portable radios.

17.9% own 35 mm cameras; 8.7% movie cameras; 6% Polaroid cameras; 6.2% slide projectors and 8.7% movie projectors. Typewriters are owned by 59.3%. Wrist watches by 88.9% and fountain pens by 81.6%.

Well, do you still think you're an average college man?

Editorial

WELCOME VISITORS!

The staff of the Norse Wind would like to extend their welcome to the future journalists on campus today, and to the F.F.A. and 4-H members who will be here Saturday.

Many people have worked long and hard to make these days successful. They range from the cafeteria which will serve the noon-day luncheons, to the Press Club and Aggie Club who were in charge of the planning and publicity, to the Norse Wind staff who put out a special issue for Press Day. We hope that each and every one of you will find some part, or all, of today's events memorable and worth while.

We have set the stage. However, in the final analysis, the success or failure of Press Day and Aggie Day rest with you. You, the students who have brought your papers, annuals, and projects to be judged. You, who must enter into the discussion groups wholeheartedly if you are to benefit by them. You, who must meet and exchange ideas with the other representatives if today is to be profitable.

One more thing will determine the outcome of this day. How much you determine to profit from the critique of your project. This doesn't mean wearing the blue ribbon. Often, it is the student who does not win who profits most from these events.

Certainly the college staff and students recognize that we are being judged as well as judging. Many of you are seniors and already beginning to think about the college you will attend next year. And you should be choosy, for your decision may affect the rest of your life.

We are called "The Friendly College" and we feel sure you have found this true. Sure, we're boasting, but to a student, we're proud of our college, the quality of instruction, and its traditions. We're proud of our campus which you're seeing at its best advantage—with the redbud trees out and the grass greening. We don't believe in hiding our light under a bushel.

We want you to look us over, because we feel that we have definite advantages to offer. Certainly we hope that you will keep us in mind when you select your college, for its one of the most important decisions you will make.

NEO Chorus Has Busy Schedule

The Northeastern Okla. A&M chorus has scheduled several appearances for the spring season says Kenneth Richards, director of the 65-voice choir.

Thursday, April 4, found the group presenting musical assemblies for Miami's two junior high schools—Central and Will Rogers.

On April 23, they will perform at assemblies for the Pryor and Vinita high schools. Besides these assemblies, the chorus will entertain at Senior Day.

Small ensembles have also planned performances. The girls' sextet sang on April 8 in the student union ballroom and will also sing at the Press Day luncheon.

Art Students See Van Gogh Painting

Art students at Northeastern Okla. A&M college attended an exhibit of Van Gogh's paintings at the William Rockhill Nelson Museum of Art in Kansas City, Missouri, March 22, according to Mrs. Kathryn Paige, art instructor.

The Van Gogh Exhibit consisted of 80 paintings and 60 drawings. It was shown in only three cities in the United States—Pittsburgh, Penn.; Detroit, Mich.; and Kansas City, Mo.

The exhibit was presented by Van Gogh's nephew.

The paintings were returned to Amsterdam, Holland, with no assurance that the Dutch government will ever permit them to be taken out of the country again.

Easter Most Ancient And Festive Of Christian Year

To the earliest Christians, Easter—Not Christmas—was the most important holiday. Referred to as the "Feast of the Resurrection," it commemorated the death and resurrection of Jesus Christ. The date of Easter is determined by the vernal equinox and the full moon following it. The observance of Easter is the most festive of Christian holidays.

One of the great disputes throughout history has been the setting of a fixed date for Easter. Easter has not always been celebrated on Sunday.

Early Christians celebrated Easter at the same time as the feast of the Passover. However, in the East the month of the Jewish calendar, corresponding to March and April).

The date of the new Christian festival, like that of the Passover, shifted from year to year in relation to the Julian calendar then used by the Romans. It was calculated according to the solar year. Consequently, it varied and died. No one denies that something happened at His tomb on the third morning after the events attending His Crucifixion.

Dr. Oswald Hoffman, noted theologian on the Lutheran Hour who addresses more than ten million people around the world; recently told his listeners: "No one denies today that Jesus Christ lived and died. No one denies that something happened at His tomb on the third morning after the events attending His Crucifixion.

Don't let anyone tell you that there are various points of view regarding what actually did happen.

There are only two. Either you dismiss the whole account as a colossal attempt to deceive the world, or you accept it as history, the factual record of what actually happened."

OWRANG SADJADI

International Student Weds Iranian Girl; Father Substitutes For Groom

BY JUNE JOHNSON & RUTH ANN WOLF

"I must have had a beautiful wedding. Too bad I couldn't make it."

These were the words of Owrang Sadjadi as he looked at pictures of a young bride in a beautiful white dress.

The bride and the ceremony were in Iran, while the groom was at Northeastern Okla. A&M college. The Iranians call it "Vecalati," in this country it is called marriage by proxy.

Owring, an international student here was married to Kayhan Rapie in Shiraz, Iran March 10, even though he never left the United States. Ahmad Sadjadi, Owring's father, played the part of the groom in the unusual wedding.

The wedding, held in the home of the bride, and performed by a Moslem priest, was not some "spur of the moment" affair. The red tape Owring had to go through just to get married would have made most American men throw up their hands in despair.

The first step toward the altar came several years ago. Owring told his father and mother he wanted to become engaged to Kayhan, whom he had met about six months before in an English class. His parents in turn, talked to her parents and together the engagement was planned.

They had been engaged about

BLAST OFF

BY MIKE DOOLIN

Advanced Brass Comes to N.E.O. March 25, 1963, the 10th A.F. R.O.T.C. cadet group was visited by several O.S.U. advanced officers. These officers were former NEO A&M students.

During R.O.T.C. classes one of the visiting advanced officers gave a brief talk about the opportunities of advanced training in the A.F.R.O.T.C. at Oklahoma State University.

I think cadet Capt. Gene Tucker summed it up very well with this statement: "It's not what the corps can do for you, but what you can do for the corps."

Remember the A.F.R.O.T.C. annual Military Ball will be held May 11, 1963.

I would liked to have seen Major Layman's facial expression when the cadet that had the burned uniform reported to class Thursday morning. Would he have been issued a couple of demerits for untidy uniform?

Technical Sergeant Jadie D. Wells, U.S. Air Force Recruiter, from Joplin, Mo. will be at the Bruce G. Carter Student Union on April 25 between 8:30 A.M. & 2:30 P.M. to talk to young men and women interested in the Airman and Officers program of the U.S. Air Force.

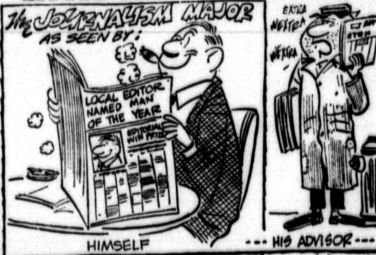

not too different from our ceremony. The bride is asked if she wants to be married. She gives her answer. The groom, however, is not asked. Afterwards the bride and groom sign their names in what is called the Aghd Nameh.

Just a few days ago Owring received pictures of his wedding. "It must have been a beautiful wedding," he said.

Owring has now sent a letter to the Justice Office in Tehran, Iran, the capital, where his wife will obtain her passport. In the letter he said, "I invite my wife to come to the United States." If all goes well Kayhan will be here in a short time.

Owring sums up the whole experience with two simple but expressive words - "It's good."

It's A Busy World For NEO A&M Students

Various Activities Keep Students Busy

BY RONNIE HUGHES

With the spring semester almost completed, Northeastern Okla. A&M college is bouncing like a spring-prairie chicken with an abundance of campus activities.

For the students who simply like to loaf, there's the student union. A newly constructed building-the student hang-out is equipped with practically everything: A modern cafeteria, snack bar, post office, book store, pool room, lounge, and an elaborate ball-room, a juke-box that plays constantly and an often heard roar across the building from a student who lost a bridge hand.

For the more intellectual students, the drama, speech and debate clubs offers a great challenge.

There's the Engineer's Club, Phi Theta Kappa, Business Club, Industrial Technology Society,

Intercollegiate Knights, Language Club, Press Club, Pre-Med Society, and many more, too numerous to mention.

The famous Norse Stars offers the girls a chance to meet new faces and learn a few new steps. A precision drill team that is known throughout the United States, the Norse Stars are the best representative a college could have.

One thing the male students

will not over-look is the AFROTC department. A highlight of the spring activities is the AFROTC Ball, sponsored by the Military Fraternity.

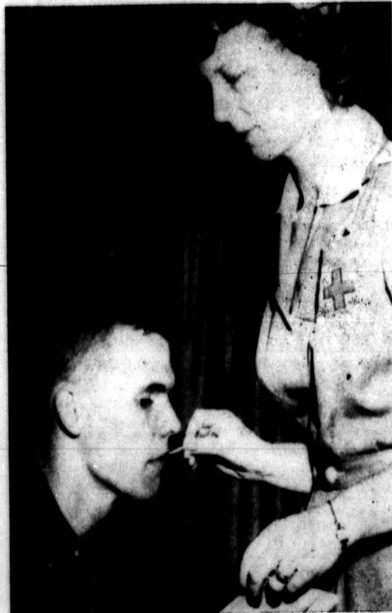

And, as you can well notice, NEO has a student newspaper. From the picture left of the column, (yours truly) it is decisive evidence that the Norse Wind staff has worked hard all semester, trying to improve the newspaper.

To the visiting students, Northeastern is a campus for fun, such as Senior Day, Aggie Day, Press Day, Science Fair and many more. It is a home for the students who live here and a place to enjoy more freely, campus activities, which in a sense, is more important than the books.

To be seen: Stand up!

To be heard: Speak up!

To be Appreciated: Shut Up!

STUDENTS HELP BLOOD DRIVE: NEO students gave freely to the Red Cross Blood Campaign when it was held on campus recently. Students helped Ottawa County reach the highest quota ever obtained. Freshmen compete annually against the sophomores in the blood drives. Here Leroy Johnson has his temperature taken by a Red Cross Nurse.

NORSE STARS GET AWARDS: Dr Bruce G. Carter, president of NEO presented these members of the Norse Stars a large letter blanket, with the Norse Star emblem and the girls' name on it, for their participation in the precision drill team the last four semesters. Shown from left are; Mary Mitchell, Gayle Haralson, Mrs. Leta Thelsing, director of the girls group who also received one, Donna Campbell, Dr. Carter and Virginia Lee Wilson, choreographer for the group.

TAKING A BREAK BETWEEN CLASSES: The center of campus activity, the Bruce G. Carter Student Union, serves many purposes. Here, students take a break between classes to read the latest edition of the Norse Wind, a student publication sponsored by the Journalism department.

LIVING IT UP! Visiting high school students as well as NEO students join each other in spontaneous dancing to a good record during the Music Festival, held recently on our campus. Over 1200 students attended the annual Music Festival at NEO.

BEHIND THE EIGHT BALL! The pool room located in the Student Union is a beehive of activity for campus pool sharks.

CAMPUS COWGIRLS! Four members of NEO's precision drill team, the Norse Stars, are shown as they prepare for one of their frequent performances during the year. Left to right; Sherry George, Afton; Nancy Smith, Miami; Sharon Nelson, Tulsa; and Donna Sandmire, Miami.

Baseball And Track Underway; Football Begins

Norse Camera Captures Athletes In Action

BY RONNIE HUGHES & CLAY ALLEN, JR.

With summer almost here, a rash of spring sports is underway, including football practice, which has become a first at NEO.

The Norse Wind photographer took several days away from the constant grind of the darkroom and managed to snap a few sports shots which can give the readers an idea of the various activities which are taking place on campus.

1. With all probability, Gene Crockett is one of the smallest guys to ever run the high hurdles at NEO. The 57" freshman also runs the low hurdles and promises to be a real threat by the end of the season.

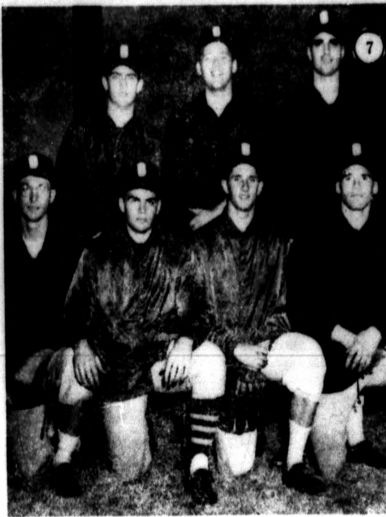

2. It won't be long before Gene Burleson, Julian Johnson, Bill Harsch and many other Golden Norsemen football players will be packing their gear and pitching tent at some college or University in the United States. Both Burleson and Johnson are sophomores from Florida and plan to return to their home state and play for the University of Florida. Harsch, also a sophomore is from Pennsylvania and will be running center for Tennessee.

3. "Whee, that was close!" shouted observers as veteran pole vaulter Foy McClung brushes past the bar in a practice run last week. Although the bar was shaking, McClung managed to give the photographers a good poise, at 11 feet.

4. Spring is here, and so is football. For the first time in the history of NEO the Golden Norsemen's prospective football unit for the coming season filed out on the practice field last week for several sessions of contact and defensive tactics.

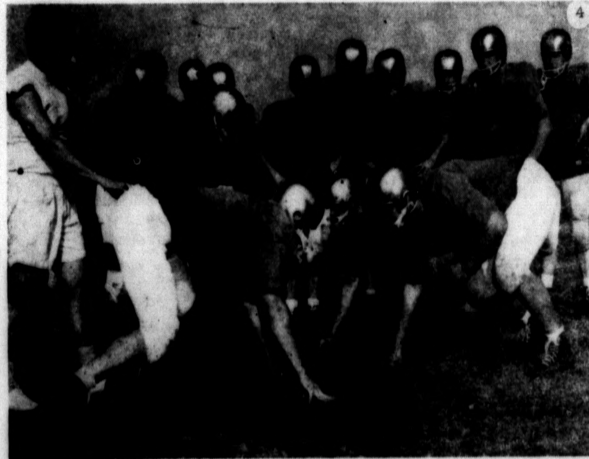

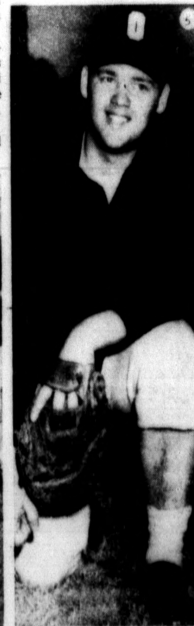

5. Frank Fox, first baseman for Homa Thomas' baseball squad has been awarded a scholarship to Utah State for Next year. The 235 pound sophomore is considered quite a threat at the plate and one of the finest first basemen to appear at NEO in several years.

6. Extra practice? Yes, I would think so! The Norse camera cap-

tured Darrell Watts and Doug Rhodes running in the sunset in practice for the Norse relays which held on campus April 6.

7. Coach Homa Thomas' Golden Norsemen baseball team has 7 returning lettermen. Pictured left to right front row are Dale Cooper, Mike Smith, Jim Derwin, and Eugene Baker. Second row: Gregg Mitchner, Frank Fox, Ed Stockard.

NEO Norsemen TU BEATS NORSE Norse Tounce Eastern In Twin Bill 13-3 And 23-3

Behind the ace hurling of pitcher Mike Smith, Coach Homer Thomas and the Golden Norse baseballers defeated the Kansas State Gorillas of Pittsburg, 8 to 3.

Kansas State who had defeated the Norse 11 to 2 in an earlier game this season, was unable to get to the excellent nine-inning pitching of Smith.

Aiding Mike at bat were Jim Derwin who had 3 hits in 4 times at bat; Glenn Kelsey 2 for 5, Frank Fox 2 for 4, and Jim Wahnee 1 for 4.

Steve Graham performed outstandingly behind the plate and went 2 for 4 with the stick while scoring two runs.

After leading 3-0 until the seventh inning, the errorful Golden Norse gave up one run in both the seventh and eighth innings and two in the ninth to lose a heart-breaking would-be victory 4-3 to the University of Tulsa.

It was all wine and roses for pitcher Ed Stockard in the first seven innings, giving up only two hits and holding TU scoreless. Never giving up, the Tulsa team squeezed across four runs in the last three innings, blowing Stockard's undefeated record to a 3-1.

The Norse beat the University of Tulsa in an earlier season contest 6 to 3.

Coch Homer Thomas and his Golden Norse handballers racked up their fourth and fifth victories, at Wilburton against the Eastern A&M college, in a pair of seven inning run aways 13 to 3 and 23 to 3.

It was tail-janky Ed Stockard all the way in the first game. Stockard won his third consecutive on the hill and helping the cause by going two for four at the plate, driving in four runs. Ed gave up only four hits while fanning 11. Bob McCullough caught the first game.

Other sluggers were Jim Wahnee, a triple and Jim Derwin, a double and two singles.

In the second game the Norse jumped on the Mountaineers with 11 runs in the first inning going on to get 23. Coach Thomas threw everything at them except the kitchen sink. He used five pitchers in the seven inning contest. Mike Smith was credited with the win.

Norse hitting included: Wahnee 2 for 3; Andy Sixkiller, 2 for 4; Gene Baker, 2 for 3; Frank Fox, 2 for 5; and Craig Nichols 2 for 3.

FIELDHOUSE FACTS

BY PHIL GRAHAM

I would like to start by thanking all of you for reading my column in the last issue of the Norse Wind. As most of you in Freshmen English know, the survey on the column was a fairly big success. As for you girls, well, you can read this also. As a matter of fact, I wish more girls would read the sports page and, even better, go to the games and the meets and see for yourself what happens.

In baseball, the last couple of weeks, some very peculiar things have been happening. As in all sports, injuries are always a major threat to whether you have a winning or losing season.

Coach Homer Thomas has had more than his share of such mishaps. Gary Haverly, first flight short stop for the Golden Norse has been out all season with a pulled thigh muscle.

In the Kansas State game, Gary started the game, still unable to move to the best of his ability, only to mess his leg up again, side-lining him for another week or so.

George Kevern, off his crutches now, will be back in the line-up again in the near future. George has been out with a bad knee since the first of the season.

Everyone on the team has some little minor detail that is giving him trouble. Frank Fox has been having difficulty with his wrists. He swings so hard his small wrists can't take the full blow at once. Frank has begun to hit the ball very good, however.

"Well, I didn't know that darn ball was going to take a bad hop," says Andy Sixkiller, when

he came up with the prettiest "shiner" last Tuesday at Pittsburg. Andy was sidelined for the game, when a ball bounced up and hit him square in the eye during pre-game warm-up. That night was just an all-around bad night for the Indians, wasn't it "Mokey?"

Track is also having its share of injuries this season. Letterman Darrel Watts has just recently returned to the cinders after having a pinched muscle in his leg. Darrel was in very good form Saturday night in the Norse Relays.

Doug Rhodes, who has a similar problem, has yet to return to the line-up. Doug, who runs in every relay event, has been having trouble with his legs.

In the relays Saturday night the Golden Norse did very well against the rough Coffeyville and Ft. Scott teams. They placed second in every relay except for their first in the 440 relay.

It is time to close and I would like to stress something to all of you. It's springtime and time for baseball and track. Let's see all of you on the sidelines cheering the Golden Norsemen on. This really helps the athletes to do their best. See Ya!
