ALL SET FOR SUMMER FUN—Pretty Debbie Courington is all ready for summer, wearing a fashion perfect swimsuit of navy blue stripes by Catalina.

Swim, Soak, Or Sun With Stylish, Striped Swimsuit

BY ANN MOCHA

Summer is near and the sky is clear, so how about a swim? This is what Debbie Courington, a freshman from Tulsa, is considering in her "sling" swimsuit by Catalina.

Flattering to almost any figure, Debbie's swimsuit consists of navy-blue stripes corresponding vertically and horizontally, with the attraction of two buckles in the front. The back of the swimsuit is cut slightly square and fashioned without a zipper.

Part of Debbie's apparel is a "cottontail" beach robe she has handy in case of a chilly day. The beach robe is made of terry-cloth cotton, and is three quarter length with short sleeves. A hood is attached to the beach robe with a tassel at the end, creating the name "cottontail."

With a dive into the season of summer, Debbie is all prepared to go swimming in her Catalina swimsuit made of Helanca Nylon and Lycra Spandex. How about you?

This fashionable swimsuit and beach robe may be seen at Hub's Sportswear in Miami.

NEO Cowboys Place In Dewey Rodeo

Marvin Gray, Fairfax, placed second and Bill Willis, Shilder, placed fourth in the rodeo at Dewey on April 2. Marvin won \$100.00 for second place and Bill won \$35 for fourth place. To win this money they had to ride bulls for a period of eight seconds.

Marvin was thrown in the rodeo at Dewey after his ride was over and the bull stomped him in the back but luckily it only knocked the wind out of him.

The boys had to pay an entry fee of \$15 which they risked losing as well as taking a chance on getting hurt.

A Name Not A Number

Student-teacher relationship is an integral factor in the college training of today. Due to the overcrowding of classes and the heavy schedule of the teachers, often the student finds himself a number in a seating arrangement rather than a young person striving for knowledge.

Often the instructor in a large university finds that he has little time outside of class to help the struggling or stumped student. At the same time, many students are hesitant to approach the instructor for help, afraid his question will be a foolish one or that he will be labeled a "brown-note" by the other students.

Freshmen are in a new environment and to a certain extent are lost in the crowds of the large college. Large numbers of them are incapable of college at first because of poor study habits or an inability to adjust to a new way of life. A carry-over of high school ideas and habits in common and can damage a college career if not curbed in time. An instructor is qualified to help a student in need, but with several hundred students there isn't time to take an interest in personal needs of the individual student.

This points dramatically to the advantages and benefits derived from attending a small college such as NEO. A small, yet well known junior college has the tremendous advantage of being personalized. Not only a friendly student-teacher relationship exists, but a personal student-teacher relationship, so vital to the student. Keener interest by the teachers in the personalities and problems of the student prevails in abundance at NEO. Thus, the end result will be a greater understanding and appreciation for learning on the part of the student, and finer preparation for a senior college or university in the years that lie ahead.

Mixers Need Live Band NEO Students Decide

BY JIM PHILLIPS

"What this school needs is a live band to liven up the Wednesday night mixers," said a majority of the students interviewed recently. A recent survey showed that the students of NEO want a live band instead of the juke box to furnish music at the weekly dance.

Upon asking several students why the attendance had fallen off and what they would do to improve the mixer, many different suggestions were given.

Linda Watkins, a freshman business major from Dewey, stated, "I don't think the highschool students should be allowed to attend because it is a dance for college students, not highschool students." John Wile, also a freshman business major from Dewey, replied, "I really feel the students should wear white shirts and ties instead of some of the clothes they wear."

Jerry Sutherland, sophomore political science major from Alluwe, stated, "I would like to see a live band rather than the juke box all of the time." Janet Turley, freshman education major from Miami had this to say, "I feel that a band would be more affective than just the juke box. After all, we hear the box anytime." Dick Rogers, freshman engineering student from Miami

remarked, "The main reason no one shows up it because they don't have a live band." Gary Garton, Miami journalism major remarked, "Better attendance and more cooperation would be had if the mixer were held once a month with a live band. A majority of the students want to have a good mixer once a week, but the lack of attendance shows that they think it is not a good one."

Naturally everyone on campus could not be asked these questions, but judging from the opinions of a few, most of the students would like to see a live band often. One student remarked, "We understand that the school can't provide a band for us every week, but if we could have one just once a month I am sure the mixers would draw larger attendance and be more enjoyable."

THE VICTORS — Students in colleges throughout the country are eligible to compete for valuable prizes in a national Essay Contest on the subject: A Student Views 'THE VICTORS.' In the above scene from the film, Romy Schneider holds the attention of George Hamilton, left, and Michael Callan. Also starred in the drama are Vincent Edwards, Albert Finney, Melinda Mercuri, Jeanne Moreau, George Peppard, Maurice Ronet, Rosanna Schiaffino, Elke Sommer and Eli Wallach.

New Movie Contest Set

Who won World War II? Taken at face value, that appears to be rather elementary question. It is the premise of a current motion picture, however, that in the course of the insanity which we call warfare, all men are drawn into the contamination of brutality.

"The Victors", produced by Carl Froeman (producer of High Noon, Guns of Navarone and other motion pictures), sets forth this thesis, and expresses the point of view that in war, no man is "The Victor".

Through the cooperation of Columbia Pictures, Inc., the Norse Wind has been authorized to offer students on the campus of NEO an opportunity to express their own views on this subject, in essay form, and win a possible prize of \$200 in cash or a portable electric typewriter.

This contest, open to all students, may be entered by submitting an essay entitled "A STUDENT VIEWS 'THE VICTORS'", to the office of the Norse Wind as soon as possible. The contest closes May 15, 1964, and all entries must be postmarked no later than that date. "The Victors", will be shown at a local theater beginning Sunday.

To those students who, after seeing the movie, are interested in entering this essay contest, full contest rules and regulations will be available in the Norse Wind office, room 205 in the Administration Building.

 "THE VICTORS"

COOK'S CORNER

BY TERRY COOK

Well, here we are again after another three weeks of spring sports. Both our baseball and track teams got off to shaky starts this season, but have improved greatly since.

The baseball team swept a double header from John Brown University and split with Bacone to salvage a fairly good week.

The victory over Bacone was quite impressive as the warriors were ranked as one of the best Junior college teams in the nation. Pitcher Larry Shiplett was also quite impressive in that game.

With the addition of Bob McCullough to the squad, the team's hitting should improve greatly. Bob started off with a bang as he got 2 for 3 in his first game.

The track team's victory over Northeastern State of Tahlequah and Bacone was no surprise to the fans who have been following the cindermen this year. The track team's desire and team spirit have contributed greatly to their victories.

John Hanoch, freshman pole-vaulter from Tulsa Rogers, stands as the team's best bet to take the state. He went 13:11 1/4 feet in a triangular meet last week to break the school record. The old record of 11 feet was set last year by Foy McClung of Fairfax.

Chances are if you are on the NEO campus around 3 P.M. you would see students heading for the practice field to play softball.

There are now five organized teams on the campus. In the 6 unofficial games that have been played, the Unbestables are unbeaten and definitely in first place. They are coached by George Kevern and Doug Gregory, and sponsored by J. R. Bond, are going to be hard to beat, but there are teams who think they can do it, and this desire should make the games most interesting. Whatever your sport, softball, baseball, or track, support your team. They need it!

Norse Split With Top Rated Bacone

The Northeastern Okla. A&M Norsemen exploded for 23 runs in 2 games to sweep a double header from John Brown University of Siloam Springs, Ark.

The Norsemen blasted the visitors 12 to 5 in the first game and 11 to 2 in the second. Sam Schlueter went all the way in the first game to post his second victory of the year.

NORSE QUEEN—Judy Washington, NEO sophomore from Claremore, was crowned Norse basketball queen at the Cameron-Norse game. Judy is an elementary education major.

Norse Explode For Two Wins

The Norsemen split a double-header with the powerful Bacone Warriors at Bacone Saturday April 18.

The Norsemen won the first game 5 to 3, and lost in the second game 5 to 2. Larry Shiplett was the winning pitcher for NEO as he came in, in relief and retired Bacone without any difficulty. This was Shiplett's first win of the season against one defeat.

In the second game Tom Tolbert from Bacone was the winning pitcher, while Sam Hendricks was the loser. Gene Dillman led Norse hitters with 3 for 4 in the first game and 2 for 3 in the second.

One of Dillman's hits was a 300 foot triple.

First Game:	Bacone	120 000 0 - 3
